Slight Ground Fighting Activity Is Reported On Bataan Peninsula

MacARTHUR FACES SERIOUS SITUATION

Japanese Seek To Have Filipinos Return To Their Work On Farms

By JOSEPH A. BORS
International News Service Staff Correspondent

WASHINGTON, Feb. 12.—A lull in ground fighting continued on the Bataan Peninsula today but Gen. Douglas MacArthur informed the war department that Japanese authorities are becoming alarmed by food shortages in occupied areas which threaten the inhabitants with starvation.

MacArthur disclosed that Filipino farmers who have been evicted from their homes by Japanese invaders have flocked to Manila or have gone into hiding in the mountains, neglecting their crops.

According to the American commander, Japan's Lieut. Gen. Masaharu Homma has issued a proclamation urging Filipinos to return to their farms unless they want to starve in the near future.

Warns Of Situation

The critical situation regarding food supplies was stressed by Homma when he warned that "star-

Steady progress is being made on the job of widening State street hill, on route 422 at the western edge of the city. Work is now in progress on construction of the huge retaining wall which will hold back the hillside where the cut has been made. With the wall constructed, the widened section of the highway will be paved, and several of the bad curves in the hill will be removed. Traffic safety will be greatly improved by the work being done.

Dutch Forces Battle Japanese Invaders

By JOSEPH J. KOSAK
International News Service Staff Correspondent

BATAVIA, Feb. 12.—Netherlands Indies forces today doggedly resisted Japanese forces on various sectors of the invasion front, but details of the fighting were not available.

"The fight against the invader is still being continued," a communique said.

Battle Valiantly

Indies forces were believed to be battling valiantly to stem Japanese advances against Macassar, capital of Celebes Island, and towards Bandjermasin, chief of city of South Borneo.

These are strategic points in the Japanese pincer operation against the important island of Java.

Meanwhile, the communique said, the Japs continued their air activity over Java. A bomber yesterday approached Surabaya, the great N. E. I. naval base, but fled when Dutch fighters took to the air.

The communique also reported "enemy reconnaissnace over various parts of the Netherlands Indies archipelago, it can be stated that

Great Red Army Offensive Still Rolling Forward

Moscow Reports Progress Despite Reinforcement Of Nazi Lines

NAZIS HURL FRESH CORPS AGAINST REDS

Russians Report German Tank Attacks Are Repulsed With Heavy Loss

(BULLETIN)
(International News Service)

MOSCOW, Feb. 12.—The great Red army offensive still rolling forward against stiffening Nazi resistance today, progressing lowly but steadily despite German reinforcements.

"Our troops continued their offensive battles and repulsed enemy counter attacks," the Russian high command announced. "We continued our advances. On Tuesday 12 German planes and eight Soviet planes were destroyed."

Military advices said the Russians were driving forward on the Leningrad, Smolensk and southwestern fronts. On the Rzhev sector northwest of Moscow the Germans were reported to have hurled an entire fresh army corps into battle.

Surprise Attack

Launching a surprise attack in a heavy snowstorm, Russian ski troops on the front west of Moscow were declared to have recaptured Maklachi, important rail center 50 miles north of Bryansk.

These ski fighters were reported to have routed the 216th Nazi Division in a punch that carried them more than nine miles behind the previous German lines.

The Red army newspaper Red Star said that a number of additional localities had been recaptured on the southwestern front and that in one action two German battalions were routed with a loss of 1,080 dead

Attacks Beaten Back

The Communist newspaper Pravda said five enemy counter attacks were beaten back on the southwestern sector and that one village was captured from the Nazis after stubborn street fighting.

On another unspecified sector, said the same paper, "an important village which is the key point to several localities" was recaptured.

It added that Nazi tank attacks were repulsed with "very severe losses" to the enemy.

Tass (Russian) news agency reported the Germans were making every effort to strengthen their lines with trenches, dugouts, wire entanglements and mines.

Norwegians Turn Backs On German Army Band

That the Norwegians still are defying their Nazi overlords is shown by this picture. All the inhabitants of Dobrak, a resort town near Oslo, were ordered to attend a military band concert. This handful showed up and most of them, as can be seen, turned their backs on the marching Germans.

Eventual Loss Of Singapore Is Indicated

British Officials Anxiously Await New Word From Embattled Fortress

BERLIN AND TOKYO CLAIMS PREMATURE

Little Word Of Battle On Singapore Is Reaching London At Present

(BULLETIN)
(International News Service)

LONDON, Feb. 12.—Singapore announced tonight it had ignored a Japanese demand to surrender.

With all hope virtually abandoned for the island fortress where Britain's far eastern naval strength was pivoted, the announcement reached London in startling and dramatic fashion—all the more so by virtue of the lack of theatricals at the sending end.

It simply formed part of the regular nightly news summary broadcast by the Singapore radio, and was picked up by Reuter's listening post in London.

By CHARLESE A. SMITH
International News Service Staff Correspondent

LONDON, Feb. 12.—Resigned to its eventual loss, British officials today anxiously awaited fresh word from embattled Singapore, where yesterday the courageous defenders succeeded in stabilizing a line virtually disecting the island from north to south.

This news was admittedly 24 hours old—word of it was received by the war office at 4:30 p. m. yesterday (11:30 a. m., E. W. T.)—and much presumably has happened since. But the claims put forward by Berlin and Tokyo that the great naval garrison had fallen appeared premature to say the least.

At 3:30 p. m. (10:30 a. m. EWT), an authoritative statement said there had been no fresh news from Singapore. There was no indication when the next communique was likely to arrive.

(Editor's Note: The latest semi-official Domei news agency dispatch from Tokyo said that Premier Hideki Tojo would appear before the Japanese diet to make a "momentous addresss" concerning significance of the Singapore victory and its effect upon future Japanese war policy.)

Hull Planning For Long Rest

Secretary Of State To Seek To Recoup Health By Stay In South

MAY REMAIN FOR TWO MONTHS

By KINGSBURY SMITH
International News Service Staff Correspondent

WASHINGTON, Feb. 12.—Tired and wearied by the terrific strain of the diplomatic events which led up to America's entry into the war, Secretary of State Cordell Hull today is planning an extended rest in the south.

Friends of the secretary say he may stay away as long as two months, if necessary, to try to regain his health.

For the present, Mr. Hull is not giving any serious thought to the question of resigning, but friends fear that unless he regains his strength, he may be tempted to ask President Roosevelt to relieve him of his office.

The secretary wanted to retire at the end of President Roosevelt's second term on the grounds of fatigue, but he was persuaded to remain on for the duration of the emergency.

Not In Good Health

He has not been in good health for some time. He took an extended vacation at White Sulphur Springs, Va., last summer, and felt much better when he returned to Washington in August.

However, he has suffered from recurrent colds this winter and has been confined to his residence here for the past week with an attack of the grippe.

Gas Overcomes Three Persons

(International News Service)

PHILADELPHIA, Feb. 12.—Three persons were killed today when overcome by gas in their South Philadelphia drug store, despite the heroic efforts of police.

The bodies of Mrs. Lena Feldman, 52; her son, Albert, 32, and his wife, Mae, 28, were discovered by neighbors when the store failed to open at 8 a. m.

Two policemen who broke into the store and attempted to revive the victims in the building were also overcome, but are expected to live.

Seventeen Chase Draft Dodger

(International News Service)

BUTTE, Mont., Feb. 12.—It took 17 peace officers, his own brother and a bullet to land him, but Walter M. Franklin, 31-year-old section hand, finally was captured and was held for federal authorities today on a charge of evading the draft.

Franklin started to run when he was handed a complaint accusing him of failing to register for the draft. Officers took after him and their number rapidly grew as the chase continued until 17 were in pursuit. One of them, mistakenly thinking Franklin was armed, shot him in the ankle.

That slowed him down and enabled his brother, Fred Franklin, 37, to catch up and bring him down with a flying tackle.

Part Of Crew Of Tanker W. L. Steed Remain "Unaccounted For"

ATTACK OCCURRED ON FEBRUARY 2

(International News Service)

NEW YORK, Feb. 12.—Little hope was held today for the rescue of thirty-five members of the crew of the torpedoed Tanker W. L. Steed, sent to the bottom off the south coast of New Jersey, Feb. 2, by an enemy U-boat.

Three members of the crew, suffering from shock and exposure arrived at an eastern port shortly before the navy department announced the loss of the vessel. The survivors were Ralph Mazzucco, 23 able seaman and Joaquin R. Vrea, 39, boatswain, both of New York and Louis Hartz, 38, able seaman, Philadelphia.

Defense Line Is Established At Singapore

(BULLETIN)
(International News Service)

LONDON, Feb. 12.—British forces at Singapore yesterday established a stabilized defense line virtually bisecting the island from north to south, British military authorities said today.

According to latest word received in London from Singapore—which arrived at 4:30 p. m. yesterday—the British has established the stabilized line from the naval base north of Singapore island's two central reservoirs, through the old race course down to the village of Pasir Panjang.

The race course is about five miles from the center of Singapore city.

Pasir Panjang is slightly more than two miles from the southwestern city limits.

Authorities said the Japanese had maintained continuous pressure along the whole front with the aid of medium and light tanks.

The British launched successful counter-attacks on the southern sectors of the line due west of Singapore city, it was stated, but the enemy later attacked in great force, compelling the British once more to withdraw.

Reports British Tanks Greatly Aid Moscow

(International News Service)

LONDON, Feb. 12—British tanks have played a big part in the defense of Moscow, Lord Beaverbrook, new minister of production, told the House of Lords today.

In a general statement of war production, he said:

"In 1941 we sent out of the country 9,781 aircraft and brought in only 2,134.

"We sent abroad about 3,000 tanks and imported only 200.

"British tanks played a large part in the defense of Moscow."

Dealing with Anglo-American supplies of war materials, Lord Beaverbrook said:

"We must embark upon great new projects to manufacture synthetic rubber.

"Not long ago we had plenty of raw materials. Now the position is different.

"Supply of war materials must be our constant occupation. It is to Washington we must look, for decision will be taken there. There the requirements of the United States, Britain and Russia will come up for examination and review."

Registration For County Board One

Board Announces Places For Enrollment In Monday's Draft Registration

Lawrence County Draft Board No. 1 headquarters (at Ellwood City) today announced the location of draft registration points for Uncle Sam's enrollment of all men born on or after February 17, 1897, or before December 31, 1921, on Monday, February 16, between the hours of 7 a. m. and 9 p. m.

Board officials urged that all embraced by its district register at their home registration station, if at all possible. Under the law, however, anyone may register at any of the locations. Anybody who has registered before need not register again.

Registration points:

Plaingrove Consolidated school.
Scott Township high school, Harlansburg.
Slippery Rock Township high school, Princeton.
Shenango Township high school
South New Castle boro school.
Chewton school.
Wurtemburg (Perry Township school).
West End and Circle schools, Ellwood City.
Lincoln high school, Ellwood City.
North Side and Ewing Park schools, Ellwood City.

Draft headquarters of the board in room 4 in the Post Office building, Ellwood City.

School teachers will handle most of the registration task, although at Ellwood Legionnaires have volunteered to do the work.

No Japanese Register Here

Hundred And Seven German And Italian Alien Enemies Are Listed Today

One hundred and seven aliens of Italian or German nationality had registered at the Federal building shortly before noon in the government's re-registration of all enemy aliens—Germans, Italians and Japanese.

Four post office clerks functioned as the crowd of registrants mounted, instead of the two who started the job Monday morning. Postmaster William R. Hanna was ready to assign more clerks if the throng increased.

No Japs In County

Those handling the identification program task said that, so far as they know, not one Japanese national will register here. To the best of their knowledge no Japanese alien resides in Lawrence county.

The bulk of the signers who were given cards to show upon request of authorities were those of Italian nationality.

The detail of re-registration takes considerable time, and that in itself accounts for the gathering of crowds. But Postmaster Hanna promised the swiftest service possible is being given.

LARGE FORCE OF BRITISH PLANES LEAVES DOVER

(BULLETIN)
(International News Service)

DOVER, Eng., Feb. 12—A large force of British fighting planes carried out an offensive sweep over the Straits of Dover this afternoon, reaching out at Calais and Dunkirk. Earlier in the day, R. A. F. planes carried out an active patrol of the channel.

German long-range guns began shelling the Dover coast shortly before 1 p. m. The bombardment lasted 45 minutes and started with a salvo of four shells, followed by salvoes of two.

Earlier in the day, enemy planes came over part of the southeast coast. They were driven off by the R. A. F. and anti-aircraft.

U. S. Ready For Japs At Hawaii

War Activity In Full Swing

Only "Suicide Squadrons" Of Jap Bombers Could Get Near Islands

STEADY PATROL IS MAINTAINED

By RICHARD HALLER
International News Service
Staff Correspondent

ABOARD A FLYING FORTRESS OVER THE PACIFIC, Feb. 12.—If Japan intends to strike again at Hawaii and Pearl Harbor, they will have to send "suicide squadrons" from carriers—which will be kept so far distant from the islands that the bombers will never be able to return.

There is little chance of the Japanese planes reaching their objectives again unseen, for there is a constant patrol far to sea maintained by this and other army and navy aircraft which maintain a vigilance about the islands.

I have been flying since dawn aboard this Flying Fortress, which is as formidable as a tank—and as nimble as a bird. It is a source of great confidence to observe the tactics of our keen-eyed crew.

I would not like to be on an enemy plane attempting to break through.

Three Miles a Minute

We now are travelling better than three miles a minute. Visibility is 20 miles, so that every hour our ship gives the minutest scrutiny to 7,200 square miles of the Pacific.

While this is a small area in comparison with the whole great Pacific spread, this is only one plane. Many others are participating in the patrols.

This constant guarding of the Hawaiian area continues for more than 12 hours daily, from dawn to dusk. The area has been charted into huge segments, shaped like a slice of boarding house pie.

Each plane covers one slice.

After finishing our day's patrol, we arrived back home just before dawn, and landed in a complete blackout at the huge army airdrome.

Beehive of Activity

The field was a beehive of activity with the buzz of motors of the Flying Fortresses being warmed up for the next day's patrol. They are the first off, for theirs are the longest and most distant flights.

The crews make ready in complete darkness, and as the first light of dawn appears over the mountain background, they begin the take-offs. Each ship, heavily loaded, moves ponderously down the runway in the dim early dawn, with only the wingtip lights aglow.

The big ships follow each other off in rapid succession. Our plane was near the end of the line, and it was almost daylight when we got under way.

I was amazed at the ease, steadiness and buoyancy of the big ship. My seat is directly behind that of the pilot, Major Russell Waldron of MacArthur, O. I was entranced with his deft manipulation of the many gadgets on the instrument board.

The co-pilot was Second Lieutenant B. S. Allen of Grace, Idaho. He also was devoting himself to the instrument panel.

Rises Smoothly

The big ship rises smoothly and circles as steadily as a motorcar. The day's assignment comes by radio and then Major Russell turns over the controls to Lieutenant Allen and goes out through the radio room to the bomb bay.

Every member of the crew is at his post and alert, for this patrol is very real business of war. With the exception of the pilot, every member of the crew serves in a double capacity—his regular job and as a gunner.

This Flying Fortress literally bristles with guns, and my eyes popped as I saw the several members of the crew leaving their regular posts and go to the gun positions. All of them—including Technical Sergeant Forest M. Allen of Chester, S. C., Radioman Private B. S. Budazewski of Buffalo, N. Y.—are trained gunners.

They limbered up the gune, firing several bursts from each. The fortress guns cover every possible angle of approach, and it was inspiring and heartening to see and hear them in action.

But the most important preparations took place in the bomb bay.

Major Waldron and Bombardier Private J. E. Wood of Littlefield, Tex., uncovered the famed secret bombsight and checked it carefully. Then they checked the bombs, stored neatly in racks for different sizes like stock in a hardware store.

There are other routine preparations and our ship was ready for anything. All this took probably half an hour.

HULL PLANNING FOR LONG REST

(Continued From Page One)

from that illness, he nevertheless is still quite weak. In addition, the secretary is known to be depressed by the sad state of world affairs. Highly sensitive by nature, he was greatly distressed by the success of Japan's treacherous attack on Hawaii.

Warned Nation

It was not that the Nippon empire's resort to war came as a surprise to him. As far back as October 1940, he warned the nation that the oceans were no barrier to an assault on America or its possessions.

"We cannot know at what point, or when, we may possibly be attacked," he said.

However, he is known to have taken a strong stand with Japan, partly because of assurances from others that the American and British fleets in the Pacific could handle a Japanese attack.

He strove desperately to convince the Japanese that their best interests lie in the development of friendly relations with this country. When he became convinced that Japan was determined to pursue its policy of aggressive expansion in the far east, he repeatedly warned the cabinet of the danger of a Japanese attack throughout the Pacific . The Roberts board completely exonerated him of any blame for the unpreparedness of the army and navy at Hawaii.

What has weighed most heavily on Hull's mind, however, has been his knowledge of America's unpreparedness for total war against what he has so often described as the "world movement of conquest".

Hull is deeply disappointed that his warnings to the nation were not heeded more properly. Ever since the outbreak of the war in Europe in 1939, he repeatedly warned the country that it must create an "impregnable means of defense" because the European and Chinese conflicts were "no more local or regional wars but part of an organized and determined movement of world conquest".

Interment will be in Oak Park cemetery.

Mrs. John Johnson.

Mrs. Aina Sofia Johnson, aged 63, wife of John Johnson, 718 Oak street, passed away this morning at about 5:55 o'clock at her home. Mrs. Johnson, who has been in her usual health, became suddenly ill and suffered a stroke last night about midnight.

Born in Wiipuri, Finland, on November 3, 1878, daughter of Gustaf F. and Hendrika Hendrickson Oxman, she had been here about 38 years.

Surviving in addition to her husband, are two daughters, Mrs. Sarah Dahl of New Castle, Mrs. Lula Brown of Lynn Haven, Fla.; two grandchildren; one sister, Mrs. Richard Johnson in Warren, O., a brother, Edward Asikainen of Cleveland, and two sisters and one brother in Finland.

The body has been removed to the Joseph B. Leyde mortuary, Highland at Winter. Funeral arrangements have not been completed.

Mrs. J. W. Sarver

Mrs. J. W. Sarver, aged 74, passed away at her residence, 121 East Wallace avenue, this morning at 7 o'clock after a short illness. She was the widow of John W. Sarver who preceded her in death 21 years ago.

Mrs. Sarver was born in Kittanning, Pa., on October 17, 1867, a daughter of Mr. and Mrs. Joseph Morrow, and had resided in this city for 35 years. She was a member of Highland United Presbyterian church.

One daughter, Lillian H. Sarver, at home; one son, C. A. Sarver of Oil City, and two grandchildren, survive.

Funeral services are to be conducted Saturday afternoon at 2:30 o'clock from the Jos. S. Rice Co. chapel, East North street, with Dr. D. L. Ferguson, pastor of Highland U. P. church, in charge. Interment will be in Oak Park cemetery.

Friends will be received at the chapel this evening from 7 to 9 o'clock and Friday afternoon and evening from 2 to 4 and 7 to 9 o'clock.

Thomas Murray.

Thomas Murray, aged 75, passed away Wednesday at 5:15 p.m. at his home on Main street, Harmony. He had been ill for several months.

Survivors are his wife, Elizabeth Ann Lutz Murray; two daughters and one son, Mrs. William Lintz of Zelienople, Mrs. Charles Golla of New Castle, Joseph T. Murray, at home, and seven grandchildren.

Funeral services will be conducted Saturday afternoon at 2 o'clock from the home in Harmony with Rev. W. W. Patch, pastor of the Harmony Methodist church, in charge. Interment will be in Harmony cemetery.

Dr. Thomas F. Cummings

After several weeks of illness, Dr. Thomas F. Cummings, aged 78, of New York City, passed away Tuesday night, February 10, in an Albany, N. Y., hospital.

Dr. Cummings was born in New Wilmington on September 3, 1863, a son of Prof. James B. and Mary Reid Cummings. He was graduated from Westminster college in 1884 and from Allegheny Theological Seminary in 1889. He became a missionary to India and was there until 1907 when he returned and became professor of linguistics at White Bible school, New York City. Dr. Cummings retired this year. He had always been actively connected with the missionary conference held every year in New Wilmington.

Survivors are the following children, Rev. Robert W. Cummings, head of Landour Language school in India, Rev. J. B. Cummings of Gordon college in India, and Dr. Esther Cummings, professor of linguistics at White Bible school, New York City. He was preceded in death by his wife, Anna Wallace Cummings, a son, Dr. John W. Cummings, and a daughter, Margaret.

The body, to arrive in New Castle Friday morning at 6:20 o'clock, will be taken to the Sharp funeral home in New Wilmington. At 1:30 o'clock Friday afternoon, the body will be taken to the New Wilmington United Presbyterian church where services will be held at 2:30 o'clock with the pastor, Dr. J. Ralph Neale, officiating. Interment will be in Fair Oaks cemetery. The casket will be open at the church after 1:30 o'clock.

Richard Hamilton

Richard Hamilton, aged 76, of 314 Green street, died Wednesday afternoon at Dixmont hospital. He leaves no relatives.

The body has been removed to the Crunkleton funeral home, West Falls street, where friends may call this evening. Funeral services will be held Friday afternoon at 1 o'clock from the funeral home. Interment will be in Graceland cemetery.

Dr. William E. Parsons.

Word has been received here of the death of Dr. William E. Parsons, aged 75, of Windsor, Vt., who passed away Wednesday, February 11, at the home of his daughter in that city.

Dr. Parsons is well known in this district, having served as pastor of Pulaski Presbyterian church from September 1, 1929, to November 3, 1935. At one time, he served also as pastor of the Beaver Falls Presbyterian church.

Survivors are his wife and two daughters, Mrs. C. D. Junkin of Windsor, with whom he made his home, and Mrs. Margaret Butler of Wooster, O.

Funeral services are to be held Friday, February 13, at 2 p. m. in Windsor.

Mrs. Wimer Funeral.

Funeral services for Mrs. Edna Wimer, wife of Sherman Wimer, 1109 DuShane street, were conducted Wednesday afternoon at 2:30 o'clock from the Cunningham funeral home, East Washington and Chestnut streets, with Rev. A. Newton Chase, pastor of the First Pentecostal church, in charge, assisted by Rev. R. G. Thomas, Harlansburg.

Two duets were sung by Mrs. Rose Bender and Miss Catherine Freed, with a solo by Stanley Smialowski, during the services. Mrs. A. Newton Chase was accompanist.

Pallbearers were W. W. Stevenson, William M. Bender, Elmer McConaghy, Martin Wimer, Joe Lane and J. B. Houk.

Interment was in Harlansburg Baptist cemetery.

Kelley Funeral Time

Funeral mass for Edward J. Kelley, 936 Maryland avenue, will be celebrated Saturday morning at 11:30 o'clock from St. Mary's church. The funeral procession will leave the residence at 11 o'clock.

Interment will be in St. Mary's cemetery.

Mrs. Mather Funeral

Funeral services for Mrs. Arabella Cobau Mather, 307 Highland avenue, were conducted Wednesday afternoon at 2:30 o'clock from the residence with Rev. Robert M. C. Griswold, rector of Trinity Episcopal church, officiating.

Pallbearers were Sam Tieche, Donald Young, Thomas Lamoree, Jack Gordon, John Byers and Dale Lawrence.

Interment was in Greenwood cemetery.

DUTCH FORCES BATTLE JAPANESE INVADERS

(Continued From Page One)

in the morning of February 11 a Japanese bomber approached Surabaya, but immediately disappeared again when our fighters went into the air," it stated.

"No further report has been received from the various parts of the archipelago where the fight against the invader is still being continued."

Jap Cruisers Destroyed

Destruction of three Japanese cruisers, one destroyer and one submarine in the first week's fighting in waters around Ambon island, site of the Amboina naval base, was announced by the Netherlands East Indies naval commander in Batavia today.

Previous reports had indicated only one Jap cruiser had been sunk in these engagements, but today's announcement was based on a compilation of full, last-minute reports.

Ambon Island, situated about 600 miles north of the important Australian base at Port Darwin, now in Japanese hands.

The naval commander's announcement was based, he said, on these new and fuller advices:

Sunk By Mine

On February 2 the first Japanese cruiser to enter the mine field laid by the Netherlands navy at the entrance of Ambon Bay hit a mine and sank within a few minutes.

On February 3, in a mine field laid before another bay of Amboina Island, a terrific explosion occurred under water, and later evidence indicates that it was an enemy submarine which was attempting to enter the bay stealthily.

Nothing has been seen or heard of the Japanese underseaboat since, and its complete destruction is now considered an established fact.

On February 5, reliable eyewitnesses watching a Japanese cruiser hugging the Amboina shoreline saw it suddenly enveloped in smoke and flame. Six heavy explosions, one after another shook the ship. It was learned later that the navy had laid a minefield exactly at this point. The original official report indicated this vessel as damaged, but the naval commander today listed it as unquestionably among the sunk.

On February 1, a giant coastal battery at Amboina, consisting of 15-inch guns, shelled and hit a cruiser and a destroyer. Fuller reports indicate that they were both sunk.

French bases of Le Havre and Brest during the night were announced by the British air ministry today.

In addition, the communique said, other British bombers hammered airdromes in the occupied territories.

NEW YORK, Feb. 12.—A British broadcast heard by N.B.C. said today that heavy fighting is in progress on the Salween river front in Burma, but that no new details have reached London.

LONDON, Feb. 12.—British authorities said today that Prime Minister Winston Churchill will soon make a statement before the House of Commons regarding the situation at Singapore.

LONDON, Feb. 12.—British military authorities said today that the satuation in Burma is "rather confused" and that the Japanese apparently have made a landing across the mouth of the Salween river.

The Japanese now possibly are in Martaban, it was conceded, but British forces are holding positions in the immediate vicinity of the port.

Authorities said the British line along other sectors of the Salween remains intact.

LONDON, Feb. 12.—The Rome radio today broadcast a claim that the Japanese flag is now flying over Raffles Square in the center of Singapore, according to Reuter.

LONDON, Feb. 12.—Reuter's listening station heard the Singapore radio broadcasting a program of classical music at 2:30 p. m. today (9:30 a. m. EWT), operating on a wave length of 30.9 meters.

CANBERRA, Feb. 12.—Martial law was declared today in New Guinea and the Territory of Papua.

FEAR 35 LOST IN TANKER SINKING

(Continued from Page One)

bers of the crew including Captain Harold G. Macavenia of Greenbush, Mass., had got away in life boats but the navy listed them officially as "unaccounted for."

The 6,182-ton Steed was owned by the Standard Oil Company of New Jersey.

Navy announcement of the sinking of the Steed was followed by a sharp denial from Rear Admiral Adolphus Andrews, commandant of the third naval district of other sinkings.

"The report that five new ships have been sunk off the Delaware coast in the last 24 hours is untrue," Admiral Andrews said.

Asked concerning retaliatory measures the navy is taking against submarines off the east coast the admiral replied:

"A submarine is a wary individual. It takes a lot of connivance to catch one. When you consider the tremendous amount of coastwise shipping done, the amount of sinking is very small.

"No, our retaliatory measures are not perfect, but they're as perfect as we know how in face of the conditions."

Shelled By Sub

The W. L. Steed was attacked in broad daylight at 12:45 p. m., Hartz revealed. He was in the chart room with Captain Macavenia when the torepdo struck without warning.

Hartz said the submarine surfaced and opened fire with a deck gun after the tanker's crew lowered four life boats and pulled away. He said seventeen shells finished the tanker and that after she went down the submarine approached within a few hundred yards of the survivors, but made no attempt to attack the life boats.

Hartz said the life boats were well provisioned but that the men had little protection against the cold except the clothes they had hastily donned after the attack.

Hartz and his companions passed two full days in the life boat before being rescued by a United Nation ship.

BRAKES STICK ON CAR; CALL FIREMEN

City firemen were called to Moody avenue at 1:35 o'clock this morning, when the brakes on a car driven by Mrs. Thelma Brundage, of 1612 Delaware avenue, stuck and started smoking. No loss resulted.

A false alarm was sounded from Box 85 at 8:50 p. m.

Churchill May Broadcast Sunday

(International News Service)

LONDON, Feb. 12.—Prime Minister Winston Churchill may go on the air Sunday evening to talk to the British empire regarding the situation at Singapore, the Evening Standard said it understood today.

The broadcast, the newspaper said, would be in addition to a scheduled appearance by the prime minister to speak to the House of Commons regarding Singapore. Richard Clement Attlee, lord privy seal, announced earlier that Churchill soon would make a statement to commons on Singapore.

EAST SIDE GARDEN CLUB HAS LUNCHEON

A luncheon assembly was enjoyed by the East Side Garden club membership Wednesday afternoon, in the home of Mrs. Leonard E. Cramer on County Line street.

Mrs. George Ward and Mrs. Cramer poured.

The usual routine followed the serving of the delicious menu, with roll call being answerred with each giving "a description of a flower, vegetable or plant, using the first letter of their surname."

Two excellent papers were contributed, the first on "Vegitation of the Hawaiian Island" by Mrs. W. H. Hanger, who illustrated with a collection of picturesque pictures The second on "Legends and Festivals of Hawaiian Flowers" was given by Mrs. Harold Boak. For the "special feature- a new custom adopted by the club, a Valentine with an original verse was presented by Mrs. E. L. Davenport.

At this session, it was voted to replant the lot at the corner of East Washington street and Butler avenue, by Epworth Methodist church, with a hardy hedge.

Guests yesterday included Miss Marie C. Hay, local Girl Scout executive and Mrs. Arch Cramer.

On March 11, Mrs. W. H. Hangar of Wallace avenue, will receive the group at her residence.

COUNCIL OF JEWISH WOMEN MEET MONDAY

New Castle Section, National Council of Jewish Women, will meet Monday evening, February 16, in the home of Mrs. George Kline of 405 East Wallace avenue, for an important session.

Speaker will be Mrs. Mollie Waldhorn of Youngstown, O., who has chosen for her topic "Making the Home Beautiful."

Refreshments will be served at the close of the business and program period.

NORTH BEAVER GARDEN CLUB GUESTS WEDNESDAY

North Beaver Garden club members met in the home of Mrs. A. H. Fullerton on the Enon Valley road Wednesday evening, with their president, Miss Frances Fullerton, presiding over the routine period. The occasion was in the form of a tenth anniversary celebration.

Program committee composed of Mrs. E. E. Bradley, Mrs. H. E. Reed and J. Wylie Brewster, and they had as their speaker, Numa Vidal. Mr. Vidal gave a timely talk on "National Defense," citing the part the civilians play in blackouts, air raids, and stressed the importance of blood tests.

The musical part of the entertainment was contributed by Willis McCurley who sang three selections, "Trees," "Let Me Live by the Side of the Road" and "Evening Prayer." Mrs. E. C. Wiggins was his accompanist.

Lunch was a later pleasure, when their first president, Mrs. J. Wylie Brewster, cut the first piece of the three-tiered anniversary cake. Their presiding president, Miss Fullerton, completed this feature.

On March 11 Mr. and Mrs. William W. Davis of the Mt. Jackson-Bessemer road will entertain, which will be in the form of a social.

WIMODAUSIS CLUB HAS MEETING WEDNESDAY

Wimodausis club members met in regular session in the Scottish Rite Cathedral, East lodge room, Wednesday afternoon, for their business period beginning at 2:30 o'clock.

Mrs. Charles E. Allen, program chairman, introduced Sergt. John L. Dean, United States Marine Corps recruiting officer, who gave a short talk on the "American Flag." He demonstrated how the flag should be carried, and hung. In closing, the salute was given.

President, Mrs. George Bolinger, presided over the routine period, at which time gratifying annual reports were given by chairman of standing committees. At this time, Mrs. G. R. Weber, chairman of the February party honoring their president, Mrs. Bolinger, gave her report.

Installation of officers for the 1942 term were as follows: President, Mrs. George Bolinger; first vice, Mrs. M. M. Ingham; second vice, Mrs. Roy Long; financial secretary, Mrs. John Haven; treasurer, Mrs. W. A. Pond; recording secretary, Mrs. R. C. Melvin. New board members include Mrs. Frank Woods, Mrs. H. A. Wilder and Mrs. S. A. Nessle.

Special recognition was given their retired financial secretary, Mrs. Lolla McBride, when Mrs. Roy Long gave a beautiful poem expressing love in appreciation for her untiring and loyal services in this capacity for the past 25 years. In closing, Mrs. Long presented Mrs. McBride with a gift.

Tea was served in the West dining room, the table being prettily arranged in keeping with the spring motif. Mrs. Bolinger and Mrs. Ingham poured, and in the absence of their chairman for this feature, Mrs. W. A. Pond, who is confined to her home by illness, Mrs. H. L. Dague and Mrs. W. H. Martin carried out her planned duties. They were ably assisted by members and those on the board.

Wednesday, March 11, Wimodausis will meet again in the Cathedral.

1937 LITERARY CLUB GUEST NIGHT-PROGRAM

Members of the 1937 Literary club, observed their annual guest night on Tuesday, in the home of Miss Grace Deegan, Euclid avenue, hostess.

The program consisted of a group of piano selections, offered by John Carlin, pianist, his contribution being well received. Of additional interest, was the showing of colored moving pictures on "Mexico" by Mrs. James D. Crawford, which she took on a recent tour of that country.

A social hour ensued, with the assemblage being served a tasty repast.

D. O. F. Club

Members of the D. O. F. club will have a theatre party this evening in a downtown theatre.

CO-HOSTESSES AT SHOWER FOR BRIDE

Misses Geraldeine Crowe and Hazel Sheehy were co-hostesses to a group of upwards twenty-five guests in the home of the former on Dewey avenue, Wednesday evening honoring Mrs. Gale Gibson, nee Shirley Allgier, a bride of January 1.

The occasion was in the form of a miscellaneous shower, and the honoree was presented with a large array of beautiful and serviceable gifts.

In the games featured, Mrs. William Allgier, Mrs. William Joyce and Norma Dixon were the prize winners. The serving of a Valentine lunch, buffet style, was the concluding feature. The hostesses were aided by Mrs. Everette Arrow and Mrs. Ruth Arrow. Pouring was Mrs. William Allgier, mother of the honoree.

WAMPUM CHURCH IS SCENE OF WEDDING

Miss Stella Riccione, daughter of Mr. and Mrs. Carmen Riccione of Wampum, and Warren Gregory, son of Mr. and Mrs. John Gregory of Beaver Falls, were united in marriage Wednesday morning in a quiet but impressive ceremony performed in St. Monica's church, Wampum.

Vows were exchanged by the young couple at 10 o'clock in the presence of friends and relatives, with the Rev. Fr. Vincent O'Donnell, chaplain of the New Castle hospital, officiating. He used the single ring service. Palms and ferns embanked the altar, and appropriate music was provided during the service.

Given in marriage by her brother, Alfonso DeMark, the bride was lovely in a gown of white satin, brocaded with velvet, made princess style, entrain. Her long veil was caught in a cap, with a beaded star crown, and she carried a bouquet of lilies and valley lilies.

Miss Jean Tammaro of Ellwood City, as maid of honor, was attired in a blue taffeta gown, with pink accessories, and carried red roses. Arthur Laniede served the bridegroom as best man.

Supplementing the ceremony, a wedding dinner was served to members of the immediate families, numbering 40, at The Castleton. Father O'Donnell pronounced the blessing

At 5 o'clock, Mr. and Mrs. Gregory departed on a wedding trip, and upon their return will reside in Cleveland, where Mr. Gregory is affiliated with the Burgess Inc. company.

Mrs. Gregory is a graduate of Wampum high school of 1940, as secretary of the class, and Mr. Gregory graduated in 1939 from the Beaver Falls high school.

Entertains Club

On February 26 hostesses will be Josephine and Helen Russo and Vera Chill.

S. U. V. Auxiliary.

Sons of Union Veterans Auxiliary members, No. 249, will meet this evening in Modern Woodman Hall with a short order of business to feature. A social time will follow, with cards and contests in play for members and friends.

Federation Juniors

The Federation Juniors Home Nursing class will meet this evening in the Red Cross rooms at the Wallace block from 7:30 to 9:30.

This will be the first class of a 24-hour course on Home Nursing taught by Mrs. Travis French for a class of nearly 30.

RED CROSS MOTOR CORPS HAS LUNCHEON

Members of the Motor Corps of the Lawrence county chapter, American Red Cross, had a luncheon meeting in The Castleton Wednesday at noon, with Mrs. John McIlwraith, chairman, presiding at the business session which followed. There were 28 present.

The members voted to contribute the sum of one dollar per month toward the upkeep of the chapter station wagon, which will be purchased in the near future for the use of the chapter, eliminating much of the drain on members' cars which is now being felt because of the emergency regulations. The members found that that sum would be less in many cases than they have been giving through use of their own cars. This would take care of the upkeep on the vehicle, insurance and storage.

B. N. W. Club

In the Englewood avenue home of Mrs. Arthur Hawk, members of the B. N. W. club gathered Wednesday evening for a social time.

For the card contests, attractive prizes were carried off by Mrs. Kenneth Owens and Mrs. Roy Smith. A hostess remembrance was presented to Mrs. Camille Monroe, who shared as a special guest.

LINCOLN AFTER 77 YEARS

ALMOST 77 years have passed since Abraham Lincoln found in death release from the turmoil and perplexities that surrounded him. These years have witnessed his growth in popular estimation from decade to decade, from generation to generations. All records have been searched and researched to set this great life in true perspective. Never is anything found that detracts from the good influence of his memory.

On this anniversary of his birth, Lincoln 's majestic spirit stands among his people, chiding, admonishing, directing, but always patient and tolerant. Today, and throughout the life of the nation, it will be well with America so long as Americans have a conscience prompting the question in every time of decision, "What would Lincoln do?"

To ponder the qualities of Lincoln and the impulses that controlled him, frequently pricks the individual with a sharp sense of shortcoming. In all apparent essentials he was as much like the average man, yet his achievements constantly shame the complaints and excuses in which the average man is wont to take refuge to avoid facing obvious duties.

The nation is fortunate in the fact that after more than three-quarters of a century Lincoln has come down to Americans as a man, not as an improbable, bloodless tradition, a plaster saint or a product of the imaginative minds of unrestrained idealists. He was too great a human being to be lost in apotheosis. He is worth more to America as he was—plain, honest, human, wise and kind—than as the vision of a dreamer.

Tremendous growth and development, capped by involvement in the greatest war in history, have complicated the problems facing the American nation, but no day of the present knows gloom so deep as that which surrounded Lincoln during the period of his most valuable service to his country. The United States will find its way to victory if its leadership cherishes the memory of Lincoln and pursues similar ideals with courage, simplicity and sincerity.

MILLIONS LOST BY A FEW SPARKS

Almost everybody concerned seems to agree that there was no sabotage at the bottom of the $5,000,000 fire which damaged the naval auxiliary Lafayette—ex-Normandie—at her pier in New York and sent her toppling sidewise into the Hudson.

The origin of the outbreak appears to be pretty well established. Sparks from a welder's torch ignited the kapok in a stacked up pile of life preservers.

Sabotage is the deliberate act of an enemy. Carelessness, or its other self, thoughtlessness, can be an equally disastrous foe. Welders handle a device so dangerous that they wear ponderous helmets and other protection. Their operations send forth streams of superheated sparks.

It is a fundamental necessity, in these and other hazardous tasks, that the utmost precautions be taken against fire. On the record, as it stands, that was not done on this huge ship, or the highly inflammable stack of life preservers would not have been in such close proximity.

We must guard against sabotage incessantly. It is equally vital to avoid preventable fire and other catastrophes. This one could have been averted.

POST-WAR MIGRATION

A belief is developing that after this war another tide of migration similar to that following the Napoleonic wars will set in from desolated lands. It will head for the most part toward South America and Australia, but some of it may reach Western Canada.

It is evident that unless the population of Europe is decimated by plague and battle, that continent can not support its people during the first years of peace. Disorganization will be too complete. South America has enough resources to support many times its present population. Australia is thinly populated for its potentiality for the creation of wealth, as is Canada.

The probability is that during the war years many of South America's resources will be placed within the reach of man that have never been tapped before. To exploit them adequately a population adaptable to skilled training would be required. Ample manpower could be drawn from Europe's excess population.

Whether the United States would want to exercise a degree of veto power over the types of Europeans migrating to South America or whether it would be on a come one, come all, basis only the peace can divulge. At any rate, the possibility has been foreseen, and it is a most interesting one.

AUSTRALIA

In a peculiar sense Australia, now in imminent danger of attack by Japan, is representative of the New World. The New World is associated generally with the western hemisphere. The people of Europe discovered it, settled it, organized it and have developed it along lines so different from that which the eastern hemisphere had known that this region of the globe became "new" and the land which its people had left was "old."

The oldest quarter of the old world was the Orient. China was ancient when Greece and Rome were yet unformed. The Orentals occupied the mainland of Asia and its outlying islands thousands of years before America was discovered.

But there remained one part of the "old world" that continued young, younger than the Americas. That was Australia and its companion island, New Zealand. They are truly the outposts of the new world. It is that fact that is setting Japanese sights to bring down Australia.

It is part of the Tokyo scheme to drive the new world completely out of the old world. America is aiding in Australia's defense is fighting very much for its own.

The Parent Problem

By Garry C. Myers, Ph. D.

TRAIN CHILDREN TO HELP IN HOME

In the average American home the child over five or six has been robbed of the opportunity to learn to share in the duties of that home. Led astray by the destructive doctrine, so widely preached for years, that a child should do only what he feels like doing, parents have generally brought up their children to be waited on and be dependent.

Most parents make themselves their children's slaves. Suppose a boy or girl of the sixth or eleventh grade were to come home from school and say to mother, 'I'll do the marketing, get the dinner and take care of the dishes; go sit down and rest or read or listen to the radio." Unless that mother had a good heart she might die from the shock! Yet we shouldn't condemn the child. He does only what he has been used to doing.

Why shouldn't youngsters, boys and girls, in any home without domestic help, be trained so they will make such an offer often and go through with it? A few high school students have such heavy school assignments that they feel they must spend most of their time at home on these studies. While this practice should be modified—and is often caused by excessive emphasis at home on nigh grades—the student who drives himself consistently to do home work is learning to take responsibility. There are only a few like him, however. Most loiter on the street, go out evenings for good times, or loaf in other ways, rarely sharing in the home responsibilities.

Destroys Character

This character-destroying practice was bad enough during peace time. But it is culpable during war! If we are to win and if we are to have young men and women properly educated to carry on and build up our democracy after the war, the home will have to train the child to bear responsibility.

Parents with children from 6 to 18 may well realize that their children have not been given the kind of home education they deserve nor the kind their nation demands of them. It will not be easy to make amends. If for instance, these parents were to announce suddenly that from now on the children shall do so and so, the results rarely will be good. Many children who never learned to share in home responsibilities would not want to cooperate or obey. Habits can't be established in a moment by a mere command.

Cultivate Responsibility

But with most children, home responsibility will come only after wise planning and continual guidance by the parents. Many a parent whose child has been hitherto assigned a number of jobs, none of which he has been doing willingly, might do well to reduce the number of required jobs by half or more and center on the few remaining ones till the child has learned to do these few on his own responsibility. Then it might be better if the child also were allowed to do some things about the home he would like to do.

Let the mother of a mere tot begin right now to make him self-reliant and train him gradually to do regular jobs about the home, doing nothing for him which he can do himself, and training him to do some things he would rather not do, just because he is a member of the family.

Solving Parent Problems

Q. When I am at the telephone my twenty-months-old child will pull on the wires and try to pull the receiver down on him. I find it hard to have even a short conversation on the telephone.

A. Get him a toy telephone which he can use while you talk on the real one. If that fails, center your efforts on training this tot in the meaning of "No" in other situations, so you can say this word with effect when next you telephone. Telephone an imaginary person, when you can easily punish the youngster immediately for each such offense.

THE SPINSTER'S PSALM OF LIFE

Tell me not in mournful numbers
Spinsterhood's a horrid dream
For there's many a wife that wonders
Why men are not what they seem.

Life is real! Life is earnest!
And the altar is not its goal,
"Maid thou art, and "Maid" remaineth
Brings no terror to' my soul.

Not in bondage, not in sorrow,
Shall I here consent to stay;
I must know that each tomorrow
I shall have my own sweet way.

Time is long and love is fleeing,
And my heart, though strong and brave,
Like a muffled drum is beating,
At the thought, "Another's Slave."

In the world's broad field of battle,
In my active, busy life,
When I meet a crusty bach'lor,
I thank heaven I'm not his wife.

Trust no suitor, however ardent,
Let the dead loves bury their dead
Measure well the load you'll carry
If you e'er consent to wed.

Wives of great men oft remind us
We might help somebody climb,
And, ascending, leave behind us
All the joys for which we pine

Joys no doubt, which many a woman
In the matrimonial game,
Having traded them for phantoms,
Would be glad to have again.

Shall I then, give up the struggle
And accept an "Old Maid's fate,"
Or, persistently pursuing,
Learn to labor and to wait?

GOT THE RIGHT CONNECTION

When the telephone was young many people were skeptical. An old farmer refused to believe it. His wife was visiting relatives in a neighboring city at the time and some of the boys took him down to the village exchange to prove it. Getting the connection, the old fellow put the tubes in his ears and hollered out:

"Hello dar, dat you, Mandy?"

At that moment lightning struck the wire on the outside of the building, and as the old fellow picked himself up from the far corner of the room, he exclaimed:

"By golly, dat's her, sho' nough!"

IMPORTANCE OF KEEPING FRIENDS

"I have little trouble in making friends but some difficulty in keeping them. Can you give me some advice as to how I may do this?"—Myrtle.

Answer: I am glad you realize it is not enough to make friends and that you must learn how to keep them. Perhaps you are too critical. Many of us are too free with our criticism — too frank with our friends. We take liberties with them that we would not dare to take with strangers. When you feel yourself going hypercritical, go into hibernation for a short time, after which you will realize that your friends are invaluable. Make it a rule not to see too much of anyone. It is a good idea to have a number of friends and acquaintances among whom you may circulate. When you feel yourself bored by one group, seek the companionship of another. Alternate. Prevent that familiarity that breeds contempt. Never presume on a friendship, using it to obtain money or special favors. Many friendships are dissolved by this technique. You cannot retain a friendship without being a good friend. This requires a strong sense of loyalty, sympathy and understanding.

How true are these few lines:

"He who has a thousand friends
Has not a friend to spare,
And he who has one enemy
Shall meet him everywhere."

Readers' Question Answered

Dear Miss Markel: I am to be married in traveling clothes, having a maid-of-honor and a best man as our only attendants. I prefer not to be given away. Must I? May I, instead, walk up the aisle with the groom or must I walk up by myself? And what about the best man and the maid-of-honor? May they walk together?—Bride.

Answer: Inasmuch as your wedding will be so informal and your attendants so few, you need not be given away. You may walk in on the arm of your future husband and the best man and maid-of-honor may walk in together, you following them, of course. In a formal wedding, the bride who does not wish to be given away must walk up the aisle alone, meeting her bridegroom at the altar.

Dear Miss Markel: When the salad (at a luncheon or dinner) is served before the main course, may it, properly, be eaten as soon as put on the table or should it remain untouched until after the main course?—H. B.

Answer: The salad is usually served after the main course; but should it be served either before or along with the main course, it may be eaten when served.

Congress Absolves Self In Unpreparedness
Blame Apathy Of Public For Present Crisis
General Discussion Held By Congress Bodies

By CHARLES P. STEWART
Central Press Columnist

WASHINGTON, Feb. 12.—United States senators have oratorically absolved congress, including both their branch of it and the house of representatives, of blame for Uncle Sam's lack of preparedness for war when the world conflict finally hit him.

The upper chamber's membership indulged in a voluminous discussion of the matter a few days ago, and it was the consensus that the general public's apathy, rather than the apathy of anp particular group of legislators or executives, was responsible for the unsatisfactory state of American defenses when attacked by the Axis. Some of the solons did, indeed, concede that they're part of the general public themselves, and, to that extent, they admitted that they were apathetic also. Congress, as a body, though, they reasoned, would have been more on the alert if the generality of its home folk hadn't been so oblivious of the situation's perils.

There was scarcely any dissent from this view in the course of the speechiflying referred to, which probably was natural enough; the average lawmaker could hardly have expecetd to break in with the contradiction. "Yes, we are, too, to blame."

Some of the congressionally criticized general public, however, having had time to digest Capitol Hill's derogatory remarks concerning it, is beginning to come back with various pungent observations of its own, mostly through the press thruout the country.

Clumsy Management

The comment's trend is to the effect that the public elects congress to manage for us nationally, and that incidents like those at Pearl Harbor and Guam, and Jap progress in the Philippines, imply it made a very clumsy job of it. To be sure, an occasional commentator recognizes that maybe the public's blameworthy for having chosen poor congressmen. This isn't a concession, though, of much comfort to those that the voters did select.

The argument has been a bit to the navy's advantage it's true. Na-

The World and the Mud Puddles

COST OF WAR.

Dr. Nicholas Murray Butler, president of Columbia University, related in a speech made some time about 1935 that he had just read an astounding fact in the Congressional Record. The World War had cost, apart of 30,000,000 lives, a total of four hundred billion dollars. Dr. Butler drew a parallel by way of evaluating that huge sum.

"With that money," he said, "we could have bought a tract of land containing five acres and on that lot placed a house costing $2500. We could have furnished that home with $100 worth of furniture and given it to every family in the United States, England, Ireland, Wales, Scotland, Austria, Hungary, Germany, Russia, France and Italy.

"Out of what was left we could have given a library costing $5,000,000 to every town of over 20,000 inhabitants in the eleven countries named and a university costing $20,000,000 also to every town of over 20,000 inhabitants in those eleven countries.

"Out of what was left, we could have set aside a sum at five per cent which would yield an annual income sufficient to pay 125,000 school teachers an annual income of $1000 and a like number of 125,000 nurses at an annual salary of $1000 each."

It is much too early to compute the total cost of the present war to all belligerents, but it is already apparent that the cost will be greatly in excess of the staggering cost of the last war.

The vivid picture painted by Dr. Butler of that cost will be an understatement rather than an overstatement of the present waste. For that is what the cost of war always is for both the victors and the vanquished.

Even the victors of the last war never recovered from the terrific costs of the first before they found themselves in a second and greater holocaust.

This time greater care must be exercised to see to it that there are greater and more effective safeguards against repitition. The world never regained its equilibrium after the last World War. The world, as we have known it, could not survive three such wars only a generation apart.

Publicity Control

WASHINGTON, Feb. 12.

IN order that a clear conception of what they are to do may be had by the President's subordinates, obviously it is essential that the instructions transmitted by the President should be clear. If he is not clear about what he wants them to do, he cannot transmit clear instructions and trouble ensues.

FROM top to bottom in the war machine, as in the peace machine, everybody under the President is limited by his limitations. In the last analysis, everything centers in him and no one—including Mr. Nelson—has a free hand except to the extent permitted by him. Perhaps that might work out well under some conditions, but what it means under existing conditions is that any confusion in the mind of the President generates confusion below. When he issues an executive order that can be construted two ways or assigns two agencies to the same job, either there is conflict or there is hesitancy and no progress.

A GOOD many of these two-way orders have been issued in the last twenty months and there are quite a lot of officials here who are uncertain about the boundaries of the field in which they are supposed to function—or even about the field. The exceedingly unsavory OCD mess is just one example. The most recent order of the kind is that directing the expansion of the Office of Government Reports, of which Mr. Lowell Mellett is head. The OGR is the agency for which last year the President, against strong protests in and out of Congress, got a hundred per cent. increased appropriation. It now has $1,500,000 a year instead of the $750,000 which it was contended by those opposed was more than adequate for any services rendered.

IN the new order, the President states that many citizens are coming to Washington seeking information and assistance. This, he says, has led many agencies to expand their information divisions. "It is now necessary," he says, "that there be an integration of the various offices having direct contact with the public, and that their activities be coordinated under the direction of a central office." Therefore, Mr. Mellett is directed to "expand" the OGR so that visitors shall have one central place to which they can go for direction and information. On the surface, this expansion seems primarily designed to assist bewildered businessmen, but the order is so framed that it easily could mean a lot more than that—and probably does.

FOR example, "information divisions" is just another term for publicity bureaus. It is one of the names which the press agents use as camouflage. The order does not mention publicity, but if Mr. Mellett is to "integrate and coordinate" the information divisions, it must mean that he is going to integrate and coordinate the publicity agencies, because the only "information divisions" anyone knows about which are not publicity agencies are Mr. MacLeish's OFF and Colonel Donovan's COI. Certainly, he is not going to have anything to do with them. All other information agencies are in reality press agencies. And nothing here needs to be integrated and coordinated more than these. They also need to be pruned down, weeded out, reduced and abolished.

HOWEVER, it is too much to hope for any reduction under the new order. The theme of all these orders is expansion, not contraction.

HAPPIGRAMS

by ERICH BRANDEIS

The other day I ran into a man who, 20 years ago, was one of the country's most brilliant inspirational writers.

His editorials appeared in hundreds of newspapers, his poetry moved a million hearts.

In those days he was wealthy—and dissolute.

He preached clean living, character, industry, thrift. He drank, squandered, loafed and cheated.

"Isn't it enough that I preach?" he asked his friends who tried to reason with him. "Must I practise, too?"

His literary product became les sparkling. Editors couldn't rely on getting his material on time. Contracts were cancelled. Income went down. He lost his home; his wife finally left him in disgust.

When I saw him the other day he was a bum.

Practise what you preach or you won't have anyone to listen to your sermon.

Earle Says He's Out Of Politics

(International News Service)

PHILADELPHIA, Feb. 12.—Two Pennsylvania Democratic leaders—former Governor George H. Earle and public utility commissioner Richard J. Beamish—stand ready today to vote for the next GOP candidate for governor if, in their opinion, he is better fitted to "successfully prosecute the war" than his Democratic opponent.

Earle, who recently returned from a diplomatic post abroad, emphasized in his address before the Shrine Club of Philadelphia that he "wanted to vote for a Democrat," and hoped his party would nominate the right candidate.

Reiterating that he personally is out of politics, Earle commented that as governor of this Commonwealth he fought "for liberalism against conservatism." But, he added, "liberalism doesn't count any more. That's out of the picture for the duration. The only thing that counts now is the successful prosecution of the war."

"I join Governor Earle in saying 'to hell with politics.'" Beamish asserted in explaining that he had changed his party five times "and will do so again whenever I think it will serve the ends of justice and the interests of the people."

Says Situation Not Realized

Senator Walsh Asserts American People Not Alive To Pacific Situation

LONG WAR SEEN TO RECOUP LOSSES

By WILLIAM S. NEAL
International News Service Staff Correspondent

WASHINGTON, Feb. 12.—Sen. David I. Walsh (D) Mass., chairman of the Senate Naval Affairs committee, today declared that the American people fail to realize "how serious the situation is in the Pacific area".

Walsh also said that it may take two years for the United States to prepare for an offensive against Japan to regain the territory that has been lost.

Public Not Informed

Commenting on the imminence of the fall of Singapore the senatorial expert on naval affairs said:

"The public generally fails to realize right now how serious the situation is in the Pacific area. The United States must prepare to take the offensive against Japan to recover the territory that we have lost. It may take a year and a half or two years to prepare for that offensive."

Sen. George (D) Ga., a former chairman of the Foreign Relations committee, foresaw a quick drive by Japan for the Dutch East Indies "if she takes Singapore". The Georgian said it now becomes more important that "the Japanese be prevented from taking Rangoon and cutting the Burma road". He was optimistic about the Pacific picture in the future, when United States war production gets into full swing.

Meanwhile Sen. Reynolds (D) N. C., maintained that the American people are beginning to criticize conduct of the war and said that the government should immediately take the country into its confidence.

"The government is telling the public the good things, very few bad things and very little of what we must do to win this war," Reynolds declared.

Too Much Complacency

"The government is making a serious mistake not to take the people into its confidence, and let them know just what is the situation.

"The result of this is that, on the part of some, there is too much smugness and complacency. They sit back and read of a Japanese or German plane being downed, and except for some major setback such as at Singapore, they know little of what is going on.

"The lack of information pervades congress. Members of congress, except for a few instances, only know what they read in the newspapers."

The possibility of the senate—much like the House of Commons—launching a full dress debate on conduct of the war was being discussed in cloakrooms.

Sen. Tydings (D) Md., however, expressed the view that congress is not yet ready for an all-out discussion of the war and criticism of its conduct.

"I do not think that the public is yet ready to become critical of the conduct of the war," he said. "After all we have only been in the war for nine weeks."

Proposals for creation of a congressional committee on conduct of the war, to discuss situations with the executive department, were revived in senatorial discussions.

Tydings said that such a committee could work for closer cooperation between the legislative and executive branches to the advantage of both.

Extension Work Offered Here

Opportunities for cultural development are offered just now in the senior high school on Wednesday and Thursday afternoons and evenings through the medium of extension work by Slippery Rock State Teachers' college.

Among the subjects taught are Appreciation of Art, Principles of Sociology, History of Pennsylvania, School Law, Visual Education, Appreciation of Music and Modern European History.

The chief thing that ails our country now is the habit of sitting in the grandstand and watching professionals do all the playing.

Press conference: A ceremony at which a Cabinet Member opens his mouth and puts his foot in it.

The Great Game Of Politics

(Continued From Page Four)

Nevertheless, a central coordinator of information and publicity could improve matters a good deal. Even though he did not abolish a single press agent he could create a degree of order and sense now altogether lacking. At present this information or press army is spread out all over the place and the waste of time, money and labor is very great. When the MacLesh Facts and Figures agency was set up there was some expectation that it would do this coordinating.

IT HAD just as much authority for that sort of thing under its order as the OGR has under the new one. It has not chosen to exert itself in this direction and it is possible the expanded OGR may not choose to do so either. The latter may content itself with construing the order as merely authorizing the establishment of a central information bureau for the bewildered businessmen and do no real integrating or coordinating. All the publicity men, big and little, are naturally concerned—and confused.

THIS publicity "coordination and integration" is long overdue. As the "information divisions" are now conducted, they constitute the most wasteful, useless and confusing of all governmental activities. The full-time press agents, whose number now approaches 3,000, literally run wild all over Washington. The next best thing to weeding them out is to coordinate them under one boss. If this new expanding order results in their control and coordination it will better the general situation. Soon or late, somebody will have to control them or they will overrun the whole show. Almost any control is better than no control. Inasmuch as to Mr. Mellett has been attributed the selection of a large numbers of the heads of these publicity agencies, who are in reality Administration propagandists, he would seem the logical man to "integrate and coordinate" them. But Mr. Mellett will not cut them down. He is a piler up, not a cutter down. If they are cut down it will be through the driving force of Senator Byrd and his Economy Committee. No one else will attempt it.

What's What At A Glance

(Continued From Page Four)

val officialdom's on record as having asked for funds, for Pacific defense purposes, that congress never appropriated. To that extent, the navy folk are in a position to say, "We told you so." They say it at congress' expense, though.

All in all, it rather appears that the legislators made a mistake in trying to wish responsibility off from themselves onto the public and the army and navy commands. They laid themselves open to a good many exceedingly stiff jabs in their own direction.

Partisanly speaking, the Republicans are hoping that the controversy will redound to their benefit on next election day, in November. They want, of course, to transform the present big Democratic congressional majority into a G. O. P. majority in the house of representatives and to make material gains in the senate; there aren't enough seats at stake at that end of the Capitol building in 1942 to give 'em control there, even if they win all of them, which it's a foregone conclusion will be impossible.

They want to gain all they can, anyway.

Their campaign story's fully cooked up already.

G. O. P.'s Story

Its purport will be that they've been solidly for 100 per cent defense preparation since long before Pearl Harbor, but that the majority, now engaged in trying to stick responsibility off onto the general public, bungled our effort. So their appeal will be to the general public to swing bodily to their side's candidates in November.

Chairman Joseph W. Martin of the G. O. P. national committee has a spiel in hand well in advance of the coming contest. Clarence Budington Kelland, the Republican's new press agent, likewise has appropriate publicity on tap, to turn loose in connection with it. The Democratic organization obviously is a little apprehensive of Clarence. It's been at pains to refer to him, in its news releases, as "one of the world's most famous fiction writers".

It promises to be a peculiar campaign, in its way—with the administration party excusing its candidates for admitted preparatory derelictions, on the ground that the general public perpetrated 'em, and with their rival candidates contending that their anti-administrationistic party has been more loyally administrationistic than the administrationists."

Plans Being Made For Conference Of Girl Reserves Here

Novel Name Tags Planned For Conference Delegates By Name Tag Committee

Many Girl Reserves are planning and working for the tri-state Girl Reserve conference that will be held in New Castle the week-end of February 20, 21 and 22. Around 179 girls from West Virginia, Ohio and western Pennsylvania will attend the conference. The theme will be "Girl Reserves Prepare to Serve" and discussion groups at the conference will be on the following subjects: Economy, Price Control, Morale and Health.

One of the committees that has already put in time planning and working is the name tag committee. This committee has planned a very attractive tag for each girl to pin on her blouse when she arrives at the Y. W. C. A. In order to incorporate the idea of George Washington's birthday and the Girl Reserve symbol into that tag, they chose to make a small hatchet out of G. R. blue paper and to draw on the head of the hatchet the G. R. symbol in white ink, and and on the handle of the hatchet to write the delegate's name and town.

Working on this commitete are Doris Johnson, Veronica Wynn and Betty Stritzinger. Other Girl Reserves who happened to be in the "Y" dropped in to help with the tags for the few minutes they had to spare.

Canned Beer To Be Through As Result Of War

(International News Service)

WASHINGTON, Feb. 12—No more tin cans for beer!

When the present supply is used up the hop and malt product will be dispensed in bottles, as the result of action today by the War Production Board in a move to conserve tin for war needs.

But the order is not restricted to beer cans. After February the use of tin cans will be barred to dog food, dried beans, baking powder, cereals, flour, petroleum products, spices, condiments and tobacco.

The WPB said that reduction in the production of these cans will save at least 15,000 tons of tin plate. Exempted from the order are cans used to pack fruits and vegetables of "primary importance," and "small sized cans. The bulk of the savings in tin plate, the board said, will result from curtailment and elimination of the use of cans as containers of goods that can be packed in other types of containers.

School Goes Back To Standard Time

(International News Service)

LAPWAI, Ida., Feb. 12.—The Lapwai consolidated school district was back on standard time today after a trial of war time, because fast time made conditions too difficult for the children.

School officials cited the case of a small boy and his sister who ride six miles on horseback to meet a private car, which takes them another two miles to meet a school bus which takes them 21 miles to the school. Even on standard time the two kids start their long trek in the darkness.

District Scouts Banquet Tonight

Akron Rubber Man To Speak At Tureen Affair; Hill Toastmaster

Boy Scouts of the New Castle District of the Lawrence County Boy Scout Council—largest of the county's four districts—and their parents, scouters and friends tonight will join in the annual district dinner and program in the Cathedral at 6:15.

Speaker will be Arthur C. Horrocks, of Akron, public relations director of the Goodyear Tire & Rubber Co. A highlight will be a demonstration by the new Emergency Corps of New Castle, led by E. D. Hawk, former Troop 3 scoutmaster and now district commissioner. Toastmaster will be County Controller Frank C. Hill.

The dinner will be a tureen affair, served by the scouts themselves. Between 600 and 700 will attend, district officials believe.

The dinner is part of the national observance of Boy Scout Week.

Scholarships For Forty Students At Penn State

(Special To The News)

STATE COLLEGE, Feb. 12.—Forty students will benefit from the award of graduate scholarships for 1942-43 at the Pennsylvania State College, it was announced today.

These scholarships, which have just been approved by the board of trustees, will exempt students from tuition and practicum fees.

Appointments are expected to be available in arts and sciences, as well as in various applied fields of agriculture, engineering, mineral industries, education and physical education, according to Dean Frank D. Kern of the graduate school at Penn State, to whom applications should be addressed.

A limited number of stipend scholarships paying $300 and of graduate assistantships paying $700 will also be available in the various departments.

Auto Safety May Now Be Enforced In New Direction

(International News Service)

PHILADELPHIA, Feb. 12.—What years of safety propaganda failed to achieve—safe and sane driving—may be accomplished through the drastic action taken against automobiles by the federal government.

The Keystone Automobile club warned its members that their cars may be immobilized for duration if disabled through highway crashes because of the "inability to replace broken parts."

"Motorists are now on notice that it is strictly a matter for their own decision whether they 'keep 'em rolling,'" Edward P. Curran, safety director of the club declared.

"Under existing war conditions with tire rationing a major problem and replacement problems looming on the horizon, the driver who was unimpressed by safety pleas may be actuated by self-interest to drive with due regard to the safety of his vehicle," he said.

Much Interest In Home Gardening College Reports

(Special To The News)

STATE COLLEGE, Feb. 12.—There has been an unprecedented increase in the home vegetable gardening courses offered by correspondence at the Pennsylvania State College.

According to Professor W. R. White, who is in charge of correspondence courses in agriculture, inquiries arrive weekly by telegraph and air mail.

Last week 84 new applications for correspondence work were received and 48 of these were for the course in vegetable gardening. Other popular courses are those on milk goats and the production of market turkeys.

Co-operating with the state's "Victory Garden" program, the department of horticulture at Penn State is conducting weekly classes in home gardening open to students, faculty, and townspeople.

It would be more pleasure to help deserving, clean, industrious, smart people—but Alas! They don't need it.

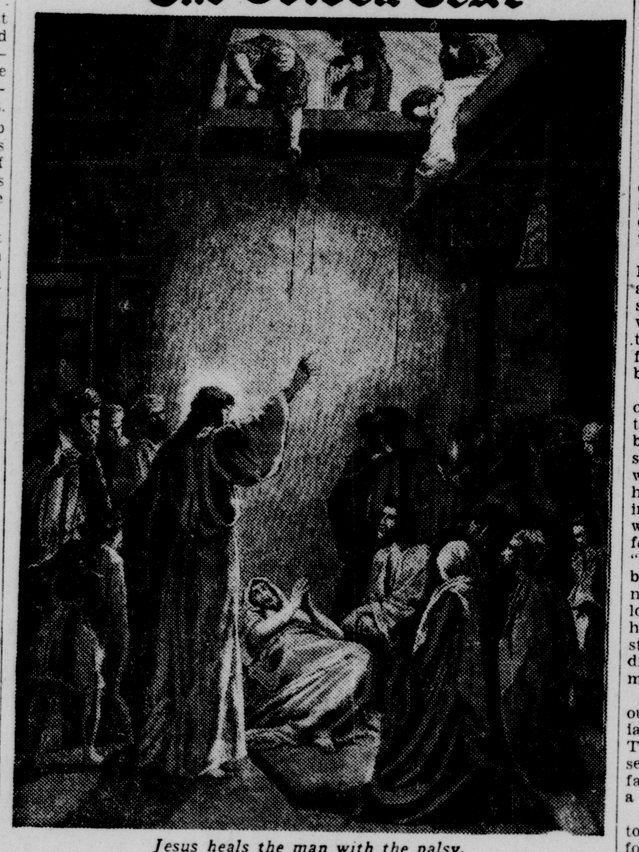
The Healing Ministry Of Jesus

Highlights On The Sunday School Lesson

The Golden Text



Jesus heals the man with the palsy.

"He had compassion on them, and healed their sick."—Matt. 14:14.

By NEWMAN CAMPBELL

(The International Uniform Lesson on the above topic for Feb. 15 is Mark 1:35-3:12; Luke 4:42-44; 5:12-39, the Golden Text being Matthew 14:14, "He had compassion on them, and healed their sick.")

Our entire lesson tells of the ministry of Christ while He was on earth, and after He had chosen some of His apostles, immediately following His baptism by John. We saw how He freed a man from an evil spirit which possessed him; following this by healing Simon's wife's mother.

Early next morning, before it was light, He arose and went to a solitary place that He might commune with His Father. Here His apostles followed him, and with them He went into several towns, preaching. To Him came a man afflicted with leprosy, that dreadful and loathsome disease. Kneeling before the Lord this man said, "If Thou wilt, Thou canst make me clean." Reaching His hand to the man, in pity, Jesus answered "I will; be thou clean," and the man was cleansed., Jesus cautioned him to say nothing to anyone of the miracle, but to go to the temple and receive the priest's instructions for cleansing himself, according to the law of Moses. Instead of doing as he was told, however, the man went out and blazed the matter abroad, probably out of gratitude, but who knows how much harm he did by not obeying the Master?

Came Again to Capernaum

Once more Jesus and His companions came to Capernaum, and by this time, so great was His fame that great multitudes crowded around Him, following Him into a house so that no more could get in. Now there was a man who was very ill with palsy. His friends brought him to the house and tried to get in to see Jesus, and when they could not by the door, they went on the flimsy roof, took part of it off and let the sick man down through the hole by a quilt knotted at the corners. Seeing their faith in Him, Jesus said to the man, "Son, thy sins be forgiven thee."

Immediately some scribes began saying in their hearts, "Why does this man thus speak blasphemies? who can forgive sins but God only?"

Jesus knew what they were thinking and asked them: "Is it easier to say to the sick of the palsy, Thy sins be forgiven thee; or to say, 'Arise, and take up thy bed and walk?

"But that ye may know that the Son of Man hath power on earth to forgive sins ,he saith to the sick of the palsy), I say unto thee, Arise, and take up thy bed and go thy way into thine house."

The man immediately arose and went out, and all were amazed and glorified God.

Going to the seaside Jesus passed by Levi, son of Alphaeus, who was sitting at the receipt of customs, collecting tolls for his Roman masters. He was one of the hated publicans. Jesus said to him, "Follow me," and Levi, or Matthew, as he is believed to be, arose and followed Him.

A feast followed to which came many "publicans and sinners, and when scribes and Pharisees saw this they asked why Jesus, a Jew, ate with such people. The Jewish law forbade sitting down to meat with them. Jesus' answer was: "They that are whole have no need of the physician, but they that are sick: I came not to call the righteous, but sinners to repentance."

Walking in the Corn Field

One Sabbath day Jesus and His disciples walked through a field of grain, and as they walked they picked some of the kernels, and rubbing them between their hands to separate the wheat from the chaff, they ate the kernels. The spying Pharisees said: "Behold, why do they on the Sabbath day that which is unlawful?"

Jesus reminded them that King David once went into the temple, and being hungry was given the shewbread which only the priests were supposed to eat, and he said to them, "The Sabbath was made for man, and not man for the Sabbath."

Once more, in the last incident of today's lesson, this same question of the observance of the Sabbath came up. Jesus was in the synagogue when a man who had a withered hand came to Him to be healed. The Pharisees were watching and waiting to see what He would do. He told the man to stand forth, and to the watchers He said, "Is it lawful to do good on the Sabbath days, or to do evil?" They did not dare answer Him, and Jesus, looking around, and grieving at their hardness of heart, told the man to stretch forth his hand; and when he did, the hand was restored to normal.

Straigthway, the Pharisees went out and consulted with the Herodians how they could destroy Him. These Pharisees considered themselves righteous, godly men, but how far away they were from practicing a real religion.

Jesus and His disciples went on to the sea, and great multitudes followed Him, and He healed many.

Final School Report Raises V. B. C. Total

V. B. C. Quota Goal Near With 2211 Books Collected By Schools

According to a report made yesterday by Dr. C. C. Green, superintendent of schools, and member of the Victory Book Campaign committee for Lawrence County, the 2211 books were collected by the public schools throughout the city. These additional contributions served to nearly double the number of books previously turned in at the Free Publci Library, and to put the total number of books collected and reported in this drive to raise books for men in the armed forces of the U. S. and the Merchant Marine nearly up to quota level.

Miss Alice Sterling, librarian of the Free Public Library, and county director of the Victory Book Campaign, stated yesterday that with this splendid cooperation from the public school faculty and pupils, that Lawrence County is within 800 of raising its quota of 5300 volumes of reading material.

"On the whole," she said, "the quality of the books given has been surprisingly good. Most of the books are of a very readable sort, and many are 'top-notchers' very recently published. Of course we have gotten a lot, too, that are not suitable, or in need of repair, but some shrinkage in the number of usable books was naturally allowed for in setting the quota, and all that are given us will be disposed of to the best advantage."

In other words, if you, Dear Reader, have books you want to give, whether they are worn from much reading, new because you got them for Christmas, or covered with dust from lying in the attic, (these last the boys hope will be good though), that you want to give, tote them to the Public Library, please, or phone 2103, and make arrangements for a Boy Scout to do your totin' for you.

Campaign Will Begin On Sunday

Eight Weeks Pre-Easter Campaign Arranged For Churches Of County

The Sunday schools of New Castle and Lawrence County are lining up in good shape for the opening of the eight weeks pre-Easter increase campaign which starts next Sunday, February 15, and is being sponsored by the Lawrence County Sabbath School Association. The goals of the campaign are an increase in evangelism, an increase in church attendance, an increase in Sunday school attendance and an increase in Bible study.

The county association furnishes the plan publicity, keeps the standings, announces the winners and makes the awards at the annual convention in June. The individual Sunday schools make their own plans as to how they can best reach the campaign goals.

The matter of the necessary committees for the campaign was discussed at a workers' conference of officers and teachers of the First Baptist Sunday school this week. The committees suggested for this particular Sunday school were as follows: A general campaign committee composed of the Sunday school superintendent as chairman, with the chairman of the following committees as members of general committee: Reception committee to extend a friendly greeting to all and to see that new members or visitors are placed in the proper classes. Inter-class contest committee to stimulate rivalry and competition among the various classes. Publicity committee to keep the campaign and results before the church membership. Transportation committee to go after those who otherwise could not attend, and, last, visitation committee to call upon members not regular in attendance, or prospects.

Hints On Etiquette

Jaywalking will be much more of an unpopular sport than ever with motorists, now tires must be conserved. If you are the jaywalker, don't think your smile will get you buy from now on. A motorist who has to "stop on a dime" in the future, which is hard on his tires, is not going to be very forgiving, so obey traffic lights and cross streets only at crossings.

Now it is Nelson—or else. If he doesn't coordinate all effort, control Army and Navy specifications priorities and distribution of orders, we are sunk.

Bandit Dies Of Bullet Wound

(International News Service)

INDIANAPOLIS, Feb. 12.—Carl Hutchings, 48, who had admitted to robberies in midwestern states during the past two years, died Wednesday of bullet wounds inflicted by police who trapped him last October 10.

Hutchings had been in the hospital since he and a companion, Darrell Marquis, 30, of Indianapolis, were captured by state police at a hideout south of Indianapolis. Another companion, Milton M. Haight, 23, of Alliance, O., was taken to Akron, O., to face a kidnaping charge.

Local police said Hutchings was wanted in several Ohio cities, including Columbus, Springfield and Akron, and in St. Louis, Mo. He had admitted 12 robberies in Cleveland, 12 in Louisville, Ky., eight in St. Louis, four in Indianapolis, and others in Akron, Canton and Mansfield, O., and Parkersburg, W. Va.

He and Marquis were accused of a $3,300 tavern holdup in Columbus on August 22 and a $3,000 robbery in Springfield.

Pottery Workers Give Generously

Total Of $3,105.75 Given To Roll Call And War Fund Of Red Cross

ACTUAL CASH IS NOW NEAR QUOTA

Another splendid contribution to the Lawrence County Chapter American Red Cross, was received today from the Shenango Pottery Company, two checks totalling $3,105.75 being turned over. One was a contribution of $1,500 to the war fund and the other was in the sum of $1,605.75 for the annual roll call.

Because of the fact that the two campaigns came so close together, the company did not solicit the employes for the war fund in the plant, but many gave individually from their homes.

Both gifts were most generous and were gratefully acknowledged by Chapter officials.

Ferry Pilots Will Be Stars In New Movie

(International News Service)

LONDON—Britain's "Boys of the Back Room" are coming into the spotlight. Ferry pilots of the R.A.F. —the men who fly planes from Canada to England, and from factory to aerodrome—are making a film in which they themselves are the stars.

Intended as a successor to the Ministry of Information's "Target for Tonight" which proved such a success both here and in the United States, "Ferry Pilot" is now in the finishing stages at an aerodrome in the south of England.

It is believed that after prevue showings here in Britain the film will be flown to America and will be generally released simultaneously with release here.

Dream Leads To Apprehension Of Slayers Of Father

(International News Service)

WADLEY, Ga., Feb. 12.—A strange story of how the dream of a 10-year-old girl—daughter of a rob-murder victim—spurred officers in an investigation which led to the arrest of her father's slayers was revealed in Wadley Wednesday by Capt. S. W. Roper, chief of the Georgia Bureau of Investigation.

Victim of the murder was W. C. Smith, 42, a filling station operator who was slain Jan. 9. Four men—three of whom have signed confessions—are held in jail in Louisville, Ga., for his murder. They are Marion Dixon, 44, Clifford Salters, 34, and Alvin McKenzie, 19, all white, and Morris Mincey, 19, a negro. Salters, McKenzie and Mincey have signed confessions implicating Dixon, Capt. Roper said.

Two weeks after the slaying, the girl, whose name was not revealed by Capt. Roper, told members of her family that her father had come back to see her in a dream the night before and had told her he had been killed by Salters, McKenzie and Mincey.

Members of her family reported the matter to Chief of Police Charles Spell. Chief Spell already had the three men under suspicion, but they had made no announcement of it and it would have been impossible for the girl to know about it, Capt. Roper said.

Here's How To Paint Windows For Blackouts

(International News Service)

WILMINGTON, Del., Feb. 12.—When painting your windows as a blackout precaution, apply the brush to the outside of the glass rather than the inside.

In that way, Du Pont Company advises, you'll be less likely to attract the attention of an enemy bomber. Paint on the inside of the window creates a mirrow-like effect and moonlight and flares are more sharply reflected than by uncoated glass, the firm explained.

Du Pont recommends black, dark brown and dark olive-drab paints for blackout purposes. Plate glass should never be painted with dark colors, however, because deep pigments absorb heat and the windows might crack under temperature changes.

Conteracting Influence

To counteract the depressing effect of darkened panes upon room occupants ,the company suggests that a white undercoat be applied to the outside of the glass before the blackout paint.

Most practical as well as the costliest blackout method was found to be the use of curtains and shields. These and shutters placed on the outside and capable of being moved or placed as the occasion demands were recommended for plants running 24 hours a day.

The curtain method not only affords protection from the weather in case of shattered glass, the company pointed out, but also permits full use of daylight by the workmen when the shutters or curtains are not in place.

EDENBURG

The Edenburg Women's club had their first "First Aid Class" in Community hall on Tuesday afternoon. Mrs. Sturdevant from the Red Cross was the teacher and showed how to bandage wounds. She asked that anyone who wants to take the course be at the hall next Tuesday afternoon at 1 o'clock.

Says Everyone In Far East Knew War Was Coming

(International News Service)

WINTHROP, Mass., Feb. 12—Home on a six-months leave of absence, Joseph F. Carlz, for the past six years a resident of the Philippine Islands, where he is chief engineer for an American oil company, said everyone in the Far East knew the war was coming—but they could not believe hostilities would break out while the special Japanese envoy was talking peace in Washington.

Carlz, a former army officer, who served in the first World War, did not reveal the name of the boat which brought him to San Francisco and did not discuss what he saw on the trip. He was accompanied by his wife, Mrs. Gertrude Carlz, formerly of Somerville.

He and Mrs. Carlz were on a ship between Manila and Hawaii when the sneak attack was made on Pearl Harbor, according to the oil expert, who said:

"How could anyone predict such treachery? That's why we were caught napping.

"But we will have our day later. When the forces of the United States strike the Japanese will get it."

He said he had travelled through much of Japan and that:

"If I ever saw a vulnerable country, Japan is it. The place is built of matchwood."

President Urges Congress To Speed Waterway Funds

WASHINGTON, Feb. 12—President Roosevelt on Wednesday urged Congress to "expedite legislative action" on the pending $1,000,000,000 Rivers and Harbors bill as an aid to nation defense.

In a letter to Rep. Mansfield (D) Tex., chairman of the House Rivers and Harbors committee, the President requested speed in getting to work on projects urgently needed because of the war.

"At this time, it is important that every phase of production contributory to the nation's armament be prosecuted with the utmost dispatch," the President wrote. "Certain waterway improvements for navigation and power production are especially desirable for the transportation and production of war materials.

"The bill in question authorizes improvements in the interest of national security and the stabilization of employment and provides that the projects authorized shall be prosecuted as speedily as may be consistent with budgetary requirements. It is pertinent to point out that the proposed legislation is merely an authorization. It is extremely important, however, that the appropriation committees of Congress may provide without delay for projects urgently needed on account of the war emergency."

Reveal Edison Warned Against Attack Of U.S.

(International News Service)

NEW YORK, Feb. 12.—Thomas Alva Edison, on the 95th anniversary of his birth Wednesday, was revealed not only as an inventive genius but a prophet who warned against the attack by aggressor nations.

Twenty years ago the famed inventor, who died in 1931, wrote this memorandum to his country:

"It is the time democracy become efficient like the autocracies, and the present is the most propitious time to try the experiment."

The memorandum was made public by his son, Gov. Charles Edison of New Jersey, in an address before the Edison pioneers.

"How much better it would have been," said Governor Edison, "if the nation had heeded that voice."

The 20-year-old memorandum continued:

"The United States should prepare to defend itself against any possible invasion. It should start now to—"organize for national defense with a general staff of the best military officers in connection with a civilian staff of our best engineers, together with a staff composed of men of great executive ability who organize and direct our great business affairs, and who can hustle and get things done quickly.

"Adopt the methods so laboriously worked out by the Germans for tabulation and coordination of all factors.

"We should have at least two military academies in addition to West Point. We should have the brains for a great army ready at the drop of a hat. We should have a large navy of extremely rapid ships of highest power; also an excessive number of high speed mine laying boats; also several hundred submarines, most of them kept in storage on land.

"All the harbor defenses should be fully supplied with the most powerful armaments.

"We should have several complete plants for the manufacture of explosives in different parts of the country.

"The government should adopt a system of military roads along the seaboard, taking charge of all roads having strategic value.

"Predatory nations are masters of espionage. They will know, and this preparedness will be a deterrent," the memorandum concluded.

Mrs. Thomas Edison, widow of the inventor, placed a wreath on a tablet marking the sight of his first commercial electric light plant, built in lower Manhattan. Later she, Mayor LaGuardia and others participated in opening an Edison exhibit in Rockfeller Center.

Tickets for the event have been placed in the hands of the members.

Wartime Kills Free Paper Offer

The long-standing offer of the St. Petersburg Evening Independent—providing free papers on days when the sun fails to shine before press time—will come to an end February 28.

Maj. Lew B. Brown, editor of the paper, has announced in an editorial that the necessary changes in publication hours, under war time, left only 61 per cent. of the possible sunshine period available before the paper went to press.

The editor instituted the free paper offer more than 31 years ago. During that period the home edition has been distributed free on 146 days.

ROUSE YOUR LIVER BILE

Sleep Sounder—Get Up Feeling Great More Ready for A Good Day's Work

To be normal your liver should discharge about a full quart of digestion-aiding juices every day. A scanty flow—a slowing up, may mean Sick Headaches, so-called Billiousness, Poor Digestion with that half-sick, sour feeling.

Snap out of it—you can. Get a bottle of Kruschen Salts—a gentle excitant—tonight; start right in tomorrow morning and take half a teaspoonful in a glass of water (hot or cold) half an hour before breakfast, and keep it up for 30 days. Now you'll know what it is to get up feeling fit and ready for a real day's work. Try Kruschen—a famous English formula—see what it means to you when Bile Flows Freer. Satisfaction or money back.

Your Federal Income Tax

NO. 34
DEDUCTION FOR TAXES

In general, taxes are deductible only by the person upon whom they are imposed.

Taxes on real estate and personal property paid during the year 1941 are deductible. So-called taxes which are assessed against local benefits, such as streets, sidewalks, drainage, and other like improvements, are not deductible but are to be capitalized, as they tend to increase the value of the property thus constitute cost of a permanent improvement. The Federal income tax may not be deducted. Income tax, however, paid to the state by an individual on his income is an allowable deduction in his Federal income tax return.

Customs duties paid by a person on articles imported for his own use are deductible. Import or tariff duties paid to customs officers; and business, license, privilege, excise and stamp taxes paid to internal revenue collectors are deductible as taxes, provided they are not added to and made a part of the expenses of the business or the cost of the articles of merchandise with respect to which they are paid, in which case they cannot be deducted separately as a tax. The purchaser may not deduct the Federal tax of 10 percent on the retail sale of jewelry, furs, and toilet preparations. The Federal tax of 1 cent for each 10 cents or fraction thereof paid for admission to any place is deductible, provided an account has been kept by the taxpayer of the amount paid. Taxes on club dues are deductible by the member paying them. An individual may deduct the tax on his telephone conversations, radio messages, telegrams and cables and on the rent of his safe-deposit box.

Unemployment compensation contributions required under a state law, if officially classified as taxes, are deductible as taxes and not as business expenses.

The excise taxes imposed upon employers by the Social Security Act, as amended, are deductible, but the tax imposed on employes by that act is not deductible. If an employer pays such tax for the employes, the amount may be deducted by the employer as a business expense, and the employes are required to report as additional income in their Federal income-tax the amounts of the tax so paid for them.

License fees exacted by a state or city upon certain businesses are deductible as taxes. Automobile license fees are ordinarily taxes and deductible. Postage is not a tax and is not deductible.

Federal estate and gift taxes and state inheritance, estate, legacy, or succession taxes are not deductible. The Federal taxes on automobiles, gasoline, cigarets, and liquor are imposed upon the manufacturer, producer, or importer, and are not deductible by the purchaser or consumer. Whether or not the gasoline tax, the use tax, or the sales tax levied by a state may be deducted by the individual purchaser depends upon the terms of the state law imposing the tax; consequently, the right to the deduction, as between purchaser and seller, varies in the different states.

College Attendance Is Nearly Normal

War Conditions Make Slight Change In Enrolment At Westminster College

(Special To The News)

NEW WILMINGTON, Pa., Feb. 12—The speeded up industrial program decreased the enrollment at Westminster college here by only 28 students for the second semester, Miss Mary I. Ramsey, college recorder, announced today.

Total registration for the second semester is 636 against 664 for the first semester. Nineteen students who were not here for the first semester enrolled for the second Of these eight are former students and eleven are now students.

Percentage of women has increased slightly. This term 362 women and 274 men are registered. Last semester's distribution was 370 women and 294 men.

Registration by classes is as follows: seniors, 123; juniors, 115; sophomores, 140; freshmen, 251; and specials, 7.

Many juniors and seniors are signing up for aviation training to prepare for army flying, and others have already enlisted in the Naval Reserve, but have been deferred until they complete their college work.

HAS ARM BROKEN

Mrs. Jennie Fisher of R.F.D. No. 5 was treated at the Jameson Memorial hospital at 4:30 o'clock on Wednesday afternoon for a fracture of the right arm, sustained when she fell from the porch at her home. She was able to return home after her arm had been placed in a cast.

Pitt Man Pens New Book On Drug Laws

Dr. Wilson, City High Graduate And Once Pharmacist Here, Is Author

DR. STEPHEN WILSON

Dr. Stephen Wilson, assistant professor in the University of Pittsburgh school of pharmacy, a graduate of New Castle high school and a pharmacist here from 1925 to 1927, is author of the book, "Food and Drug Regulation", which the American Council on Public Affairs has just published.

In the volume he traces the evolution of the problem of food supply through three stages—getting sufficient food, prevention of sale of unfit food and the modern problem of nutrition.

Dr. Wilson holds degrees of pharmacy graduate, pharmaceutical chemist, bachelor of science, master of arts and doctor of philosophy from the University of Pittsburgh. He went to the school of pharmacy from New Castle.

Dorothy Thompson Attacked By Woman

Kicked And Bitten By Unidentified Woman In New York Last Night

(International News Service)

NEW YORK, Feb. 12—Dorothy Thompson, writer and lecturer, suffered painful injuries early today when she was kicked and bitten by an unidentified blonde woman who had just been ejected from a cafe for shouting "Heil Hitler."

Miss Thompson was treated by Dr. Max Ehrenberg, who reported nearly a half inch of flesh had been torn from the writer's index finger by the assailant's teeth.

The incident started in the Cafe Royal, Lower East Side restaurant, frequented by many celebrities. The blonde woman, described as obviously intoxicated, began shouting "Heil Hitler" and abusing those at nearby tables. Miss Thompson started to leave the restaurant just as the young woman was ordered from the place by the manager.

On the sidewalk, Miss Thompson chided the woman's escort, friends said, for permitting the young woman to make a spectacle of herself in a restaurant. Without warning, the woman jumped from the taxicab she had entered and assaulted the writer. Miss Thompson was kicked in the abdomen, in addition to being bitten.

In the excitement, Miss Thompson's assailant hurried away in the taxicab.

The Woman's Society of Christian Service of the Methodist church met in the church Wednesday evening for their regular monthly meeting with the president, Mrs. Olive Book, in charge. During the business meeting plans were made for a pie exchange before the next meeting. Motion was made to purchase a flag for the church. Mrs. Erna Raub and Mrs. Marie Biddle were appointed as committee.

The program was led by Mrs. Ada McCullough, the subject "We Are Not Divided". Mrs. McCullough read several interesting articles pertaining to the needs of our country and "The importance of church" and "Beyond the Dark Present".

A touching player, "An Adventure of the Last Mile", was ably acted by the following cast:

Grandmother—Mrs. Erna Raub.
Mother—Mrs. Clare Hoover.
Miss Stevens—Mrs. Peggy List.
Anton—Gene List.
Sonia—Alice Hoover.

At the close of the program tasty refreshments were served by Mrs. Florence Filby, Mrs. Dorothy Nicholls and the Misses Gladys and Dorothy Rape.

The society will have a tureen dinner in the township building Wednesday, March 11, at noon with the regular business meeting in the afternoon. Mrs. Kathryn Roberts will be devotional leader and Mrs. Marie Biddle program leader.

ATTEND DEFENSE MEETING

The following persons from here attended the mass defense meeting held in the Hillsville school Tuesday evening: Mr. and Mrs. Roy Raub, Mr. and Mrs. Frank Usselton, Mr. and Mrs. Walter List, Mr. and Mrs. Sam Book, Mrs. Ferd Book, Mrs. George Nicholls, Mrs. Ada McCullough and Mrs. Ray Biddle.

EDENBURG NOTES

Mr. and Mrs. Sam Book and Mr. and Mrs. Wilbur Paden were Saturday visitors at the home of Mr and Mrs. Albert Harrison in Pittsburgh.

Mrs. Sam Phenecie and children and Ralph Cooper were Saturday callers at the home of Mr. and Mrs. Homer Johnston in Meadville.

Mrs. Sturdevant of New Castle will conduct first aid classes in the township building Tuesdays at 1 o'clock for the next few months.

News Briefs From City Hall

Police today were ordered by their chief, W. G. McMullen, to keep a watch at State street hill where boys are reportedly rolling stones down the hill. The city and WPA are cutting back the embankment for widening purposes.

So far seven federal auto stamps have been reported to have been stolen here. The latest theft was reported last night by D. B. Hite of 1108 West Washington street. The stamp was removed while the auto was parked in front of that address.

Hanna Lists Rural Route Out Of City

Two Routes Eliminated Several Years Ago, Postmaster States

Postmaster William R. Hanna today listed the rural routes operating out of the city of New Castle for the convenience of the public. Several years ago two rural routes were eliminated and were consolidated. There were routes 8 and 9.

The rural routes and the sections they serve are as follows:

Route One—Out Ellwood City road to bottom of long hill just this side of Ellwood City, turn to right and return by parallel road to Old Pittsburgh road, then down into Savannah and Clifton Flats district.

Route Two—Out West Washington street, onto Youngstown road to Harbor, and return via Sampson street, with intervening territory, then down Lee avenue and return via Smithfield street in Union township.

Route Three—Out New Wilmington road to Nashua road, also North Mercer street, and return via Pulaski road.

Route Four — Out Harlansburg road to Harlansburg, south and return via County Line road.

Route Five—Out Highland avenue and Mercer road to Patterson farm, this side of New Wilmington, across to Eastbrook, and including East Brook district, returning over Graceland road and including section around old Paper Mill.

Route Six—Butler road including Princeton district and return via Frew Mill road.

Route Seven—Sheep Hill district and across to Mt. Jackson road almost to Bessemer, including intervening points.

Special Services At Tifereth Israel

Attorney Joseph Solomon To Speak On "A Layman Speaks" At Services

After regular services at the Tifereth Israel synagogue on Friday at 5:30 o'clock, the late special services will commence at 8:30 o'clock.

Rabbi Gilbert A. Elefant will lead the opening prayers and the congregation will take part. Mrs. Maurice Slaven will lead in the Hatikvah hymn, and the hymn welcoming the Sabbath Day follows.

Sheldon Cohen, a Hebrew student will conduct the Kiddush (sanctification). Darwin Slovon conducted this period last week, instead of Sheldon Cohen, who was unable to attend. For his sermon's subject the rabbi has chosen, "Freedom of Religion."

The hymn "Yismechu" will be sung by the congregation, followed by prayers for America in its crisis, and the song "God Bless America."

Guest speaker on this occasion will be Attorney Joseph Solomon who has chosen, "A Layman Speaks" for his subject. Other features of the program are: Sabbath seminar on the topic "raising our children," to be conducted by Simon Rogovin. Mrs. Maurice Slaven will conduct the current history period; prayers for sick by rabbi announcements and closing hymn.

Hostesses will be Mrs. William Cohen and Mrs. Harry Pitnoff.

Y. W. C. A. Program Speakers Announced

In addition to Rev. James E. Smith, pastor of the Madison Avenue Christian church, and Rev. N. L. Meeks, pastor of St. Peter's A. M. E. church, Cleveland, other speakers to be heard on the interracial program for the rededication of the newly decorated Y.W.C.A. auditorium tonight will be Ruth Hill and Hannah Braswell of the Elm street committee of management, and Miss Alice Sterling and Mrs. Ira Ramsey, chairmen of the public affairs committee and the world fellowship committee of the central Y.W.C.A.

The program, also in observance of Lincoln's birthday, will start at 7:30 o'clock.

All members of the Y.W.C.A., with their men and women friends are invited to attend this event.

ST. VITUS SODALITY PARTY ON FRIDAY

Members of the Our Lady's Sodality of St. Vitus church will enjoy a Valentine party Friday evening, February 13, in the convent hall.

A special program has been arranged for the event, with Frances Corio in charge. Lunch will be served at the conclusion of the activities.

WOMEN FOR PRESIDENT

Two women have been nominated for United States president: Victoria Woodhull, in 1872, and Belva Lockwood, in 1884 and 1888.

It is said that there are approximately 5,000,000 hay fever sufferers in the United States.

KIDS TICKLED BY SPINACH SHORTAGE

(International News Service)

CHICAGO, Feb. 12.—This should be a cause for jubilation among the kids:

R. M. Carleton, secretary of the Illinois council of defense victory gardens committee, reported today there will be a shortage of spinach seed this year and hence, presumably, less spinach served for consumption by the youngsters.

Sees Continued Need For Program Of W.P.A.

By RAYMOND WILCOVE
International News Service
Staff Correspondent

HARRISBURG, Feb. 12.—There is a continued need for the W.P.A. but it is not certain whether the federal work-relief program will be continued after June 30, Col. O. K. Yeager, acting Pennsylvania W.P.A. administrator, asserted today.

Yeager appeared confident that President Roosevelt would ask Congress to continue the work projects administration beyond the end of the present fiscal year, but on a greatly reduced scale. The uncertain quantity, he admitted, was what action Congress would take on the request.

The President has already indicated, said Yeager, that he would ask approximately $465,000,000 for the continuation of the W.P.A. during the 1943 fiscal year, approximately half of the W.P.A.'s present appropriation.

Sees Quota Cut

Although there are 10,000 people on the state relief rolls now awaiting W.P.A. employment, Yeager disclosed he expected that there would be a 10 to 15 per cent cut in the present quota, which is 63,700 for the month of February. Approximately that number are now employed.

Thus, from 6,300 to possibly 10,000 persons will probably be dropped from W.P.A. rolls within the next four months, a move made necessary, explained Yeager, to make funds last until the end of the fiscal year.

Yeager disclosed that in 1941 the W.P.A. spent a total of $115,698,462 in Pennsylvania. Of this the federal government furnished $85,208,942, while state and local government sponsors contributed $30,489,519.

This was a sharp drop from the previous year. In 1940 the W.P.A. expended $158,840,000 in Pennsylvania.

Despite the war, emphasized Yeager, there are many unemployed people in the state who still find it difficult to obtain jobs in private industry. One reason for this, he pointed out, is their age.

The average age of a person now on W.P.A. is 50 years, said Yeager, and 75 per cent of those on the federal work-relief rolls are more than 40 years of age. These men are not wanted now by private industry and if deprived of W.P.A. employment they and their families will be forced to go on state relief, he asserted.

Yeager quoted Howard O. Hunter, national W.P.A. commissioner, as stating that he expected unemployment to increase, for some time at least, until civilian industries were converted for war purposes.

Teachers, Neighbors End First Aid Class

Group Of 39 At Washington Eligible For 'Standard' Certificates

Thirty-nine teachers and neighbors of George Washington junior-senior high school will receive Red Cross certificates in standard first aid for completion of a 20-hour course of training which Principal Browne K. Thacker inaugurated some time ago.

Instructors were Mrs. Geneva Walker and Dan Carroll, who have been presented with gifts of appreciation by the class.

The advanced course of ten additional hours will be given by these instructors beginning Thursday, February 19, from 7 to 10. Those wishing to take the advanced work should register at that time.

Gives Plan For Salvaging Ship

Righting Overturned Normandie Will Take Months Says Designer

NEW YORK, Feb 12.—The designer of the capsized Normandie said today that the fallen giant could be righted only by its own buoyancy and estimated that the job would take five months.

"Men and machines aren't powerful enough," Vladmir I. Yourekvitch declared. "The Normandie will have to right itself."

As the first step in salvaging the fire-scarred $60,000,000 liner that was the pride of France, he said all openings and vents in the ship's upper part, now under water, must be repaired and the compartments pumped free of water. Then he would pour 6,000 tons of water into the double bottom and fill other lower compartments to help create buoyancy.

To aid in the operations, the designer said it would be necessary to pump mud from underneath the 83,423-ton vessel. With the ship "balanced" and the bottom freed of mud, he said he was certain the once-majestic liner would begin to rise.

Yourkevitch went to the pier Monday to see flames eating away the ship's innards.

"I couldn't stay long," he said. "It was a terrible sight."

Meanwhile, a group of men, apparently maritime experts, studied the position of the ship, measuring distances from piers and viewing it from all angles. Soldiers still guarded the pier.

As to why the fire spread so rapidly, Yourkevitch said in the interview that "it seems probable that some of the tight-partitions in the hull had been removed and also that the elaborate fire detection and fighting system had been disconnected or possibly dismantled. Quantities of fresh paint helped feed the fire."

Motor Car Drivers Warned By Council

CHICAGO, Feb. 12. — National curtailment on the sale of new automobiles and tires may increase rather than decrease the number of traffic accidents, the national safety council believes.

Several points enumerated by Sidney J. Williams, national safety director of the council, appears to out-balance popular belief that the ban will solve traffic accident problems:

1 Motorists may find it difficult to keep their older cars in safe condition because of a shortage of spare parts and skilled mechanics.

2. Many cars unfit for service will go back on the roads.

3. Increased tempo of war production and transportation will aggravate further problems that already have sent the traffic toll to record proportions.

4. Tires in many cases will be used beyond the safety margin.

5. Blackouts may come to many cities.

On the weaker but more optimistic side of the scale, Williams pointed out that curtailment may:

1. Reduce sharply the number of cars in use.

2. Influence those who use cars to drive less.

3. Cause motorists to drive more slowly and carefully to prevent excessive wear or loss of the car in a wreck.

RAISE ORGAN FUND

A total of $1,650 has been raised by members of the local Methodist church for the organ fund drive which was completed recently. Some outstanding pledges are still unpaid.

In celebration of the completion of the drive, a victory dinner was held recently. Sponsoring the affair were the Brotherhood and Women's society of Christian Service. Rev J. N. Holder, former local pastor, was the principal speaker, and special music was provided by Miss Louise Kerr, Westminster College junior from New Castle.

The organ, which will be installed sometime in March, cost $1,547. The surplus money will be used to buy choir and organ music.

CHIEF GETS DIPLOMA

Glenn Martin, New Wilmington chief of police, has received a diploma which is awarded for the completion of the civilian F. B. I. defense course for police, taken in Pittsburgh this winter.

Included with the diploma was a letter from J. Edgar Hoover, head of the F. B. I., in which Mr. Hoover congratulates Chief Martin upon his completion of the training course.

SCOUT ANNIVERSARY

One hundred sixty-eight people were present at the anniversary dinner of the Wilmington district of the Lawrence County Council, Boy Scouts of America, held recently in the local U. P. church. The affair was considered a great success.

Demonstrations of first aid, signalling and tumbling, given by the New Bedford and New Wilmington cub and scout troops, were first on the after-dinner program. Next on the schedule of events was the presentation of a flag to the New Wilmington troop by W. A. Reed, representing the local Community Chest. The flag was received by Moreland Thompson, troop chairman, and Homer D'Lettuoso, scoutmaster.

The first speaker of the evening was John J. Finnessy, executive director of the county council, who spoke on "Scouts in Civilian Defense." Mr. Finnessy pointed out that body building, signalling, and first aid, the subjects of the demonstrations, are all valuable factors in civilian defense. Also speaking at the dinner was Arthur T. Prasse, superintendent of the George Junior Republic, Grove City.

Local Rotarians and Kiwanians attended the dinner in lieu of their regular meetings. R. Warren Graffam, of Pittsburgh, lieutenant governor of the 4th Division of Kiwanis International, was the guest of the local club, and was introduced by President Russell C. Sewall.

REGISTRATION MONDAY

The fire house will be the scene of the registration of men from 20 to 44 this Monday. The house will be open from 7:00 a. m. to 9:00 p. m.

Principal Walt Whitman of the New Wilmington public schools announces that, in compliance with the recent request of Governor James, and following the example of almost all other schools throughout the country, the local school will be closed on Monday. Teachers will assist in the registration, which is in charge of J. W. Williamson.

RED CROSS DRIVE

The New Wilmington Red Cross drive has now reached a total of $614, according to W. Filmore Campbell, chairman of the campaign. Five or six canvassers are yet to be heard from.

The drive will probably be completed within a week's time, and it is hoped that the $700 mark will be surpassed.

Mr. Campbell also states that the first aid course will be started here as soon as instructors are available. The course at the college, under the supervision of the collegiate nurses, has already begun.

DIES IN ALBANY

Dr. Thomas F. Cummings, well-known in New Wilmington, died in the Albany hospital, Albany, N. Y., on February 10, after several weeks' illness.

Dr. Cummings was born at New Wilmington on September 3, 1863, the son of Prof and Mrs. James B. Cummings. He graduated from Westminster College in 1884. After graduating from the Allegheny Theological Seminary, he married Miss Anna Wallace, and in 1889 became a missionary to India, remaining there until 1907.

From 1907 until the present year he had been professor of Missionary Linguistics at the White Bible school, New York City. He was actively connected with the missionary conference held here annually.

Surviving are three children: Rev. Robert W., Rev. James B., and Dr. Esther.

Shot Four Months Ago, Gunman Dies

INDIANAPOLIS, Feb. 12. — A wound inflicted four months ago as he attempted to escape a state police trap caused the death Wednesday of Carl Hutchings, 48, who Capt. Walter Eckert said was wanted for 70 robberies in five states.

Hutchings was shot by state police as he ran from the home of his brother here.

State officers were seeking Hutchings at the request of St. Louis police who said they had arrested a gunman companion and wanted Hutchings for questioning in a dozen robberies there.

The companion, Darrell Haight, 25, of Alliance, O., was taken to Akron, O., later for trial on a kidnaping charge.

Darrell Marquis, 30, who was taken into custody at the time Hutchings was shot, was removed to Columbus, O., to face charges in connection with a tavern holdup there.

Captain Eckert said Hutchings had admitted holdups in Ohio, Missouri, Kentucky, West Virginia and Indiana in the last two years.

HAS FINGER CUT

Bill Coulter, aged 10 years, of 422 Sumner avenue, was treated at the Jameson Memorial hospital at 10:45 a. m. Wednesday for a laceration of the finger which he sustained on the fender of his bicycle.

U. S. Troops On Dutch Islands Near Venezueala

Force To Guard Oil Refineries

Army Contingent Sent At Request Of Netherlands Government

ANOTHER TANKER REPORTED SUNK

By JOSEPH A. BORS
International News Service Staff Correspondent

WASHINGTON, Feb. 12.—In a move to bolster western hemisphere defenses and protect the United Nations oil supplies, American troops today took up positions beside Dutch forces guarding refineries on the Islands of Curacao and Aruba, off the coast of Venezuela.

Disclosed by the state department in a special announcement, the latest movement of American army units came as United Nations forces in the Pacific fought to stem increasingly furious Japanese onslaughts aimed at the oil-rich Netherlands East Indies.

Its significance was intensified by the fact that the threat to the East Indies mounted with the collapse of Singapore's defenses as Nipponese forces deployed for a major drive against Gen. Douglas MacArthur's greatly outnumbered Philippine defenders.

To Protect Refineries

The state department explained that an army contingent was sent to the islands off the northern coast of South America "at the request" of the Netherlands government to protect refineries "which are vital to the war effort of the United Nations and to the defense of the western hemisphere."

"The United States forces will operate under the general supervision of the Governor of Curacao and will be withdrawn upon the termination of the emergency," the state department explained.

"It is understood furthermore that the Venezuelan and Netherlands governments have reached an agreement whereby the former will cooperate in this defense measure in a manner similar to that agreed upon between the governments of Brazil and the Netherlands in the case of Surinam."

Under a similar arrangement recently, American troops were sent to Surinam to protect Bauxite mines vital to the production of aluminum.

Another Tanker Sunk

Meanwhile the navy's Atlantic coast units pressed their search for raiding Axis submarines as another United States tanker was torpedoed and sunk in American waters.

The latest victim, the W. L. Steed, owned by the Standard Oil Co. of N. J., was the 24th ship attacked in the recent U-boat raids aimed at cutting the nation's oil supply line and disrupting shipping generally. Twenty-two are known to have been sunk.

In the far Pacific, MacArthur's position was considered critical by war experts, despite the recent lull in land fighting on Bataan.

Even while reporting that savage fighting on Bataan ceased temporarily, MacArthur himself warned that "movements of hostile reinforcements indicate early resumption of an attack in force against our positions."

Young People To Have Rally Tonight

Christian And Missionary Alliance Group Will Meet At Drake Tabernacle

Young people of the Christian and Missionary Alliance of the Lawrence county area will hold their bimonthly rally this evening, February 12, in Drake Gospel Tabernacle at No. 2 Mine, near Leesburg. Speaker will be Rev. T. J. Keegan, evangelist and former pastor of the Castlewood Gospel Tabernacle. Rev. Russell Schillinger will be chairman. The meeting will be interspersed with several instrumental and vocal selections. The speaker is a talented musician playing on the musical saw and accordion as well as several other instruments. He is also a sand and chalk artist.

Plans have been made for transporting those from New Castle. Cars will leave the Alliance church, 210 Pearson street, at 7 p. m. Other delegations from Ellwood City, Castlewood and Sharon will take part in the rally service also.

Red Cross Furnishes Latest Pictures To Camp Theater Hospitals

As a part of its program for helping the morale of hospitalized soldiers in army camps from coast to coast, the American Red Cross has treated more than 200,000 service men to the latest motion picture features, states R. F. Davis, chairman of Lawrence county chapter.

The films are purchased by the Hospital Motion Picture Service of the Red Cross and are exhibited in 67 camp theaters throughout the country.

Started last July, the program has been developed rapidly with approximately 170 different features in the Red Cross motion picture library to date. Included in this entertainment bill of fare are the very latest Hollywood productions.

Jury Finds Woman Is Not Guilty Of Killing Husband

(International News Service)

GEORGETOWN, Del., Feb. 12.—After deliberating less than three hours, a 12-man jury Wednesday found Mrs. Dora F. Tyndall not guilty of second degree murder in the shotgun death of her husband, John R. Tyndal, well-known Delaware building contractor.

Testifying in her own defense, the defendant said her husband was killed either by himself or someone else while she was absent from their residence at Rehoboth Beach the night of December 26.

Mrs. Tyndall told the jury that she was unaware of her husband's death until she and relative, Allie C. Green, went to the attic and found him lying on the floor—killed by a blast from a 16-gauge shotgun. The state had maintained that the shooting was an aftermath of a domestic quarrel which centered around a $5 check.

More Students Study Russian

(Special To The News)

STATE COLLEGE, Feb. 12.—Although courses in the Russian language have been offered at the Pennsylvania State College for the last three years, the entrance of the United States into the war stimulated enrollment in these courses to increase 50 per cent, according to Dean Charles W. Stoddart, of the School of the Liberal Arts.

Dean Stoddart pointed out that increased enrollment in a language during the second semester is unusual. He said that ordinarily there is a decrease in language students during the second half of the academic year.

During the first World War there was a similar interest in Russian courses. Dean Stoddart said that the late Dr. Max Kriss, professor of animal nutrition, then earned part of his college expenses by tutoring the language

Over 22,000 Pupils In Pennsylvania Helped By N. Y. A.

High School And College Students Aided In 1,200 Institutions

(International News Service)

HARRISBURG, Feb. 12.—More than 22,000 students in Pennsylvania's high schools and colleges are being helped in national defense work by the National Youth Administration, it was announced by Isaac C. Sutton, State N. Y. A. Administrator.

A total of 22,369 students in 1,111 high schools and 97 colleges and universities are being given financial help in completing their education in return for doing work in and about their respective institutions. Sutton pointed out that the current number being helped is approximately 50 per cent less than the number aided last year.

"This is due," he said, "to a reduction in N.Y.A. student work funds." He pointed out that there were at least half again as many students who applied for help, but who could not be given aid because of appropriation limits.

"During the current year schools and colleges have been using, to a great degree, this part-time N.Y.A. employment in the interest of national defense. First consideration in the assignment of student workers' activities is for work with civilian defense agencies, the Red Cross, and army and navy establishments."

He indicated that priority for N.Y.A. workers in all colleges and high schools is being given these public service assignments. According to figures, the estimated average earnings for N.Y.A. high school youth are $4.12 per month, for college youth $12.93 per month, and for graduate students $21.31 per month.

New Blackout Paint Is Being Tried In London

(International News Service)

LONDON—In an effort to reduce the serious number of accidents caused by the blackout, the London Transport system is today experimenting with a new paint that glows in the dark.

When ultra-violet rays are thrown on it there is a bulish glow.

Signs and stairs have already been treated with this flouorescent paint at several subway stations in the heart of London

If the tests prove a success "blacklight" may be used on all bus platform steps, the edges of station platforms and at streetcar junctions.

Report Nazis Are Using Two-Man Tanks In Libya

(International News Service)

LONDON — News that General Rommel has been employing two-man tanks in Libya has aroused considerable interest and speculation on the part of military observers here.

These tanks, it is stated, are known to be built in two parts and can be easily transported in troop-carrying planes. Assembly takes only a short time.

Tanks of a similar design were first tried out in Crete, but have been considerably improved before their introduction as reconnaissance and patrol machines in Libya. Both their fire-power and their speed has been substantially increased.

Informed circles here believe that the expected German attack on Malta may now depend on how many of these tanks the Germans are compelled to send to Libya.

It is felt that a speedy victory by the British in Libya will increase the probability of an attempted air-borne invasion of Malta.

The collapsible opera hat is also known as the Gibus hat, named for its inventor, a London hatter.

Making a Soldier of Sugar

AS we have sent men abroad to fight for America—as we have sent money—as we have drafted steel, with other commodities, into fighting-service or enlisted wheat and other fighting-foods—so we must make a soldier of sugar.

Nutriment for the nations at war is as vital to the outcome as the powder that feeds the guns. A great nutrient in time of peace—in war a veritable sinew—sugar is now called upon to play a heroic part, to supply the peoples of our Allies—whose strength is ours.

To wrap up sugar in the American flag, so to speak, and put it into the fight becomes a duty of loyalty. It will be borne cheerfully by every industry, every dealer, and every individual it falls upon. Upon certain industries it falls heavily—and especially on the workers who derive their living from them. Yet the American civilian is in this war with the soldier. American business great and small, American capital from Wall Street to the remotest country bank, is with the Government every step of the way. The *U. S.* means *Us.* We all of us, are in the fight with everything we have, the sum of everything we ch

History repeats itself in World War II. Sugar has been called to war again. Our government has restricted the use of sugar for all. Naturally, that includes Coca-Cola.

You'll continue to find Coca-Cola around the corner from anywhere, though we regret that you won't be able to enjoy *the pause that refreshes* as often as you might like. Our volume has been reduced. But this we pledge: the character of Coca-Cola will be unimpaired. The American people can continue to trust its quality.

Dutch Admiral's Selection Made To Aid Defense

By JOHN R. HENRY
International News Service
Staff Correspondent

WASHINGTON, Feb. 12.—Selection of Vice Admiral C. E. L. Helfrich to direct the sea forces of the United Nations in the southwest Pacific was described today in Washington's informed quarters as a move to guarantee unflinching Dutch cooperation and otherwise solve a series of problems effecting the joint command of the anti-Axis powers.

Vice Admiral Helfrich, veteran campaigner of the Royal Netherlands Navy, succeeds U. S. Admiral Thomas E. Hart. The navy department stated that Admiral Hart has been relieved of his command, at his own request, because of ill health.

Nature of Hart's illness was not disclosed. Naval spokesmen emphasized, however, that his departure from his post is no indication that he will retire.

Cause Of Choice

The possibility of Dutch dissatisfaction with the status of the joint command prompted the choice of Helfrich almost as much as Hart's ill health, according to authoritative sources.

When the anti-Axis supreme board of strategy was established by President Roosevelt and Prime Minister Churchill with the British general, Sir Archibald Wavell, as top man and Admiral Hart next in line, the Netherlands military chieftains were placed in subsidiary position. There were unofficial reports that the Dutch leaders resented the alignment.

Vice Admiral Helfrich's appointment, informed persons asserted, is a "happy solution" to the situation.

Dutch Attack Next?

Pointing out the probability that Japan's next offensive operation will be centered in the Dutch East Indies, Washington military experts said that Helfrich "is the best man for the job."

Helfrich was characterized as thoroughly familiar with all phases of projected operations in the Indies, having been active for many years with the Netherlands seagoing units in the south Pacific. His Washington acquaintances said Helfrich is a gifted tactician, especially crafty in maneuvering about the straits that cut through the Indies area.

The Dutch commander, a native of Java, is 55 years old, almost a decade younger than Admiral Hart.

Although Admiral Hart is about to reach the retirement age, his performance as commander of the American-British-Dutch-Australian forces won an accolade from naval authorities. His direction of the attacks upon Japanese convoys in Macassar Strait, according to experts, will be a new page in the combat history of the light sea units.

Helfrich, like Hart, will direct the Allied sea strategy chiefly from land bases. Helfrich will rely upon Vice Admiral William A. Glassford Jr., American's youthful and aggressive leader, to command the ABDA sea-going operations.

Pittsburgh Coal Company Reports Best Earnings

(International News Service)

PITTSBURGH, Feb. 12.—Showing its best earnings since 1922, the Pittsburgh Coal Company today reported a net profit of $2,435,626.97 for 1941.

Reputedly the largest commercial producers of bituminous coal in the world, the company, according to Ernest F. Rumpf, press spokesman, is looking forward to "an even better year in 1942."

The financial statement, which is subject to adjustments prior to delivery of the annual audit in March, listed sales, operating and other income of the company for the year at $43,806,681.68, more than $3,500,000 in excess of 1940.

The cost of sales, operating and general expenses, however, was quoted at $36,791,886.09.

Taxes of the company, which includes U. S. and Canada normal income, declared value excess-profits and state and provincial income, totaled $726,764.61 compared with $385,967.87 in the previous year.

Rumpf disclosed that the company has 350,000 shares of preferred stock, of which 530 shares are in the treasury and 400,000 shares of common stock, of which 2,668 repose in the treasury.

As of December 31, 1941, he said, an arrearage of $133.80 exists on each share of preferred, of which $96 is dividends and the balance is interest.

Rumpf said that the company is losing a great number of miners to the armed forces but added that the slack undoubtedly could be taken up so as not to create a shortage of the product so essential to the war effort.

Immunize Soldiers Against Fever In Tropical Countries

(International News Service)

WASHINGTON, Feb. 12.—Secretary of War Stimson today ordered immunization of all U. S. army soldiers and officers against yellow fever, indicating that American soldiers soon will be available for duty in the tropics on a moment's notice.

Hitherto only soldiers and officers who were known to be designated for service in tropical regions have been vaccinated against this disease.

"Today's order is a preventive measure designed to make all soldiers available for service in areas where the disease is known to exist," Stimson said.

LULL CONTINUES AS JAPS PREPARE FOR NEW ATTACK

vation or prosperity will be determined by your efforts today or tomorrow."

At the same time MacArthur disclosed that the Japanese forces have occupied another one of the many Philippine Islands but military experts asserted the new move was not considered important.

The newly occupied point is the island of Masbate near the center of the Philippine group and is merely considered a threat to inter-island communications.

Despite the lull in fighting the threat to MacArthur remains serious as indicated by the latest communique which stressed the fact that enemy forces are awaiting additional supplies and reinforcements before resuming the offensive.

Text Of Communique

Following is the text of the war department's 103rd communique

"Philippine Theater—There was very little ground or air fighting in Bataan during the past 24 hours.

"The enemy is evidently reorganizing his forces and awaiting additional supplies and reinforcements before resuming the offensive.

"The Island of Masbate, near the center of the Philippine Archipelago, has been occupied by Japanese troops.

"Reports are reaching Gen. MacArthur's headquarters from the occupied areas of Luzon indicate that Filipino farmers who were evicted from their homes by Japanese invaders have crowded into Manila or have hidden in the mountains to escape harsh treatment at the hands of Japanese soldiers.

"As a result there is a scarcity of laborers to tend the crops, and food supplies are becoming scarce.

Japanese Alarmed.

"This condition has so alarmed the Japanese military authorities that Lieut. Gen. Masaharu Homma, commanding the Japanese army in Luzon, has issued the following proclamation

"'Return promptly to your farms. Our near brethren who are swarming in the seat of hostilities, return promptly to your farms and harvest your crops and sugar cane.

"'Now you cannot get supplies or commodities from the overseas countries. You must get your food with your own hands. While you are hiding in the mountains to escape the tumults of war the crops will rot up and the seedlings of sugar cane for the next year will be lost. If you leave them as they are you must die from starvation on the roads.

"'The Japanese forces never harm any Filipino who is diligent in his occupation. Don't flee into the mountains being misled by the absurd propaganda of the United States of America.

"'The tumults of war have already gone far away. Peace will be brought about solely by the consciousness and determination of the Filipinos. Secure food supplies promptly by the sweat of your brow.

"'Dear brethren, return to your farms and begin at once your harvest. Starvation or prosperity will be determined by your efforts today or tomorrow.'

"There is nothing to report from other areas."

Wolves Club Has Smoker-Party Event

Final Social Activity For Wolves Members Until After Lenten Season

On Wednesday evening members of the Wolves club enjoyed their smoker-party event in a meeting place on South Mill street.

Serving of the hot tasty meal started promptly at 6:30 o'clock. Following, the group enjoyed a period of cards and smoking. Out-of-town guests were present.

Chairmen for this event were James Scarazzo and Thomas Malizia, and A. N. Carbon was the program chairman. This is the first stag event to be held by the club and it marks the final social activity for the group until after the Lenten season. A ladies' night has also been planned to take place after the Lenten season.

PAY DIFFENENTIAL IS NARROWED BY ORDER

also decided the company should pay night shift workers at its New Kensington, Pa., plant bonuses of three cents an hour for the "B" or 3 p. m. to 11 p. m. shift, and five cents an hour for the 'C" or 11 p. m. to 7 a. m. shift.

Abolition

The Aluminum Workers of America (CIO) had demanded complete abolition of wage differentials between the company's plants at Detroit, New Kensington and Edgewater, N. J., in the north and those at Alcoa and Badin in the south. Wages for beginners are 18 cents, or 24.6 per cent higher at New Kensington and 20 cents, or 26.7 per cent higher at Detroit and Edgewater, compared with those at the two southern plants.

The dispute was certified to the board Aug. 16, 1941. Hearings were held for three days, after which Prof. Paul R. Hays, a member of the New York State Board of Mediation, was appointed to investigate the issues.

Pittsburgh, Feb. 12.—The Aluminum Company of America today accepted "under protest" the war labor board decision narrowing the wage differential between its northern and southern plants, declaring the ruling "was not based on the facts."

The company contended that its wage differential is less than that reported for 105 industries throughout the country, that its employe earnings are well above the average for the group and that "any unnatural or abrupt change in the existing wage structure" would have a detrimental effect.

Sees Fate Of Singapore Sealed In Short Time

By CAPTAIN JOHN H. CRAIGE
U. S. Marine Corps, Retired
Written Especially For International News Service

With this morning's London communique admitting that Japanese forces hold the western half of Singapore Island and Tokyo claiming that British defending divisions are cut into several isolated pockets, it is obvious that the fate of Britain's Gibraltar of the South Seas has been decided and will be sealed in a matter of hours.

The passage of Johore Straits, mile-wide water barrier, by Nipponese hordes on Sunday night marked the beginning of the end. If the British garrison could not hold this powerful defensive line, it was obvious that they would stand little chance once a bridge-head was established so that heavy Japanese guns and tanks could rumble across and continue the pounding that had forced the defenders to retreat hundreds of miles down the Malay Peninsula.

Air Power Shortage

Shortage of air power and manpower spelled Singapore's doom The British Empire authorities had built a powerful fortified base on the strategic Malay Straits, but they neglected to supply the fighting forces of air and land necessary to hold it.

From the beginning, the Japanese air force ruled the skies. The Mikado's heavy bombing squadrons hammered unceasingly at communications centers, while dive-bombers and fighter planes deluged the battle lines with high explosives. Land forces cannot take such one-sided pounding.

On the ground the Japanese forces enjoyed almost equal superiority. Singapore dispatches have referred to the strength of Empire troops as around 40,000, and stated that they were outnumbered five to one by their enemies. These are impossible odds and the Japanese have proved their right to rank among the world's most fanatical and formidable fighting men.

Great Disaster

Unquestionably Singapore's loss will rank as the greatest disaster to United Nations' arms since the fall of France. Britain's Gibraltar was the keystone of the arch on which was built the entire structure of the close blockade of the Japanese Empire.

By their swift campaign of conquest, the men of Nippon have already secured access to vast quantities of iron ore, rubber and tin, together with considerable oil. On Sumatra and Java, nearby, are further great oil fields. Japan's problem will henceforth be a race with time to restore to production these sources, heavily damaged by the British-Dutch scorched earth policy.

Singapore's fall will open the way for further ominous moves by the Japanese army and navy. Unquestionably, the campaign to complete the conquest of Java, Citadel of Dutch strength, will be pushed with renewed vigor.

The doughty Dutch, assisted by American flyers and naval vessels, have been putting up a valiant battle, making the Mikado's men, ships and planes pay heavy prices for the gains they have made. But Dutch and United Nations' resources seem much too small to resist the brown flood the Japanese can throw against them.

Speed Burma Attack

Simultaneously with the thrust against Java and Sumatra, the present offensive against British Burma will undoubtedly be speeded to the limit. This seems likely to develop into the main Japanese push of the immediate future. The way to Australia is indeed open, but Australia can call to the colors a million fighting men of the toughest kind. Burma would be less formidable and would yield infinitely greater strategic results.

Key positions in Burma are Rangoon, Mandalay and Lashio, which control the Burma road, main highway by which supplies can be sent to Free China armies. Rangoon is less than 100 miles from present Japanese front lines and Mandalay is not much further off. If these fall to the Mikado, Chiang Kai-Shek's forces will be isolated from support.

Equally important is the fact that Burma is the eastern gateway to India. Calcutta, India's Bengalese metropolis, lies much less than 1,000 miles beyond Rangoon. If Calcutta and India were threatened by a powerful Japanese army, navy and air force, large reinforcements, especially in ships and planes, would be necessary. To provide these would be difficult. The effect of diverting such forces from other theatres might be grave.

Statements and opinions herein are private to the writer and are not to be construed as reflecting the views of the navy department.

Tool Production Again Halted

Inter-Union Dispute Ties Up Work At Ford Bomber Plant For Time

(International News Service)

DETROIT, Feb. 12—Production of vital tools and dies for the Ford bomber plant was interrupted today at the Rouge plant of the Ford Motor company for a fourth time in as many days with more than 5,000 workers standing idle for an hour and a half in the aftermath of a dispute between two workers.

Again today, as in previous instances, the company "pulled" the power switches, according to officials of the UAW-CIO. Company officials refused comment.

The workers had been urged by R. J. Thomas, president of the UAW-CIO, to return to work and remain at their jobs.

A spokesman for the army also emphasized the necessity for continued operations, pointedly declaring "the situation is crucial". He said:

"This situation has been going on for two months without any justification. Steps are being taken by the union, management and the army to clear it up. I must say that the union leaders and the management have been very cooperative.

"We have got to have this production move along.

"The situation is crucial."

Inter-Union Squabble

Work was halted today, it was reported, because the company discharged two tool and die shop committeemen after firing Horace Merrill, described as a former A. F. of L. steward, on the demand of the UAW-CIO. Merrill ,it was asserted by several workers, engaged in a fight with a UAW-CIO member.

Of the discharge of the two committeemen, a company spokesman did comment, saying they were fired because they were responsible for spreading the dispute from one section of the plant another and crippling production

The union has reiterated to the men the necessity of continued production and last night men arriving for the night shift were handed a union statement which read:

"For national defense and maintenance of the union it is imperative that the night shift, all departments, work tonight. The union is taking up the case of Horace Merrill through the regular procedure. ...The case will be settled to your satisfaction. The important thing tonight, to you and to your union and to the United States of America, is to keep up production of vital defense work."

Laura Ingalls Denies Reports

(International News Service)

WASHINGTON, Feb 12.—Laura Ingalls, noted aviatrix, today avowed on the witness stand her admiration for Hitler's system of "fixing individual responsibility" but denied that she had ever said "a Hitler would be a good thing for this country".

Dressed in a black jacket and brown skirt and a wide brimmed hat, the woman flyer who is on trial in a federal district court for failing to register as a foreign agent, denied or qualified many statements attributed to her by government witnesses.

She admitted that at one time while consulting Dr. I. Daniel Shorell professionally in New York she had said:

"In Hitler's country there is an individual responsibility. One man alone is head of the air force. One man alone is head of the army or economics. This produces individual responsibility—it gets results."

Mrs. Roosevelt May Quit Her OCD Post

(International News Service)

ITHACA, N. Y., Feb. 12.—Mrs. Franklin D. Roosevelt, guest speaker today at Cornell's 35th annual farm and home week, told newspapermen she "had always intended to resign from the OCD when its organization was completed."

She said she thought the work would be organized "very soon", and then she would "organize herself out".

Valentine Party Is Much Enjoyed By Mullentowners

Cupid played a prominent part in the gathering held by the members of the Mullentown Association in Woodmen Hall on Washington street last night when quite a few former pupils of the old Mullentown school were present.

The affair was in the nature of a Valentine party and when these little and big love messages and some that were not love messages were passed out it created a great deal of amusement.

The evening was one long to be enjoyed, there being music, singing and bingo to amuse and prizes in defense stamps were given. First prize was won by Mrs. Viola Evans, second prize by Mrs. Geo. Glass, third prize by Fred Rote and fourth by Dan Phillips.

President Mrs. Ida Suber and her committee deserve a great deal of credit for the success of the affair. Bert Evans was general chairman of the evening, while Hugh Hannon looked after the musical entertainment and Mrs. Nell Fulkerson and her committee the refreshments.

Urges President To Seek Speed On New Tax Bill

By ARTHUR F. HERMANN
International News Service Staff Correspondent

WASHINGTON, Feb. 12.—Treasury sources today indicated that Secretary Morgenthau has recommended to President Roosevelt that he send a special message to congress urging immediate action on the new war tax bill as a move to break the deadlock between congressional and treasury experts over th mans of raising funds to financ the war.

Congressional and treasury experts have been working on the first war tax measure for many weeks, but have been unable to reach an agreement on how the people are to be taxed to raise the first $7,000,000,000 asked last month by the president.

Meanwhile congressmen are demanding that hearings on the tax measure be gotten under way immediately, even if the framers of the legislation have been unable to settle their differences.

Sen. George, (D) Ga., chairman of the senate finance committee, voiced the opinion of many members in congress when he declared that "the feeling is that consideration of the tax bill can not be longer delayed."

Will Confer

He told reporters that "progress has been made by the staffs of the treasury and joint congressional tax committee," adding that he and Chairman Doughton of the house ways and means committee, would confer with both groups the latter part of this week," probably Friday."

It was learned from responsible quarters, however, that the treasury and congressional conferees thus far have failed to agree on the two most important points in the tax program. There has been no agreement that the tax bill shall yield the full $7,000,000,000 called for by President Roosevelt. Nor have they agreed upon the principle of whether the bulk of the individual levy shall be raised from a withholding tax, or a general sales tax.

Should the treasury and ways and means committee decide to begin tax hearings in the near future without general agreement, the committee would have the added burden of drafting a revenue measures from widely divergent suggestions sponsored by various arms of the federal government.

'Y' Put Flaherty At Campaign Helm

Plant Executive Accepts Leadership For Member Drive In March

J. Preston Flaherty, treasurer of Johnson Bronze Co., today had accepted the general chairmanship of the 1942 membership drive of the New Castle Y. M. C. A. The campaign comes in March.

General Secretary Robert L. Meermans, in announcing Flaherty's appointment, praised his able leadership in previous drives. Last year he served as a key aide to Richard E. Rentz, who was chairman.

Organization of the solicitation army went forward at the "Y" with yesterday's announcement of the campaign slogan: "Keep Fit for Service at Home and in the Armed Forces".

Boys' campaign teams start their work February 21 and the men's teams March 3. Two March report dinners are planned.

Flaherty has long been a leader in affairs of the local association.

Assails British War Leadership

(International News Service)

MELBOURNE, Feb. 12.—Vigorous criticism of British war leadership was voiced today by Australian Minister of Aircraft Production Senator Cameron.

Commenting on statements in the British press concerning shortage of planes for the defense of Singapore, Cameron said:

"In view of the extensive use of Australians on the fiercest battle fronts, I consider that by their refusal to learn the lessons of Dunkirk, Greece, Crete and Libya and to employ the time at their disposal to consolidate Singapore air defenses and offensive power, British advisers have almost forfeited their right to be trusted or to call themselves a democratic people."

Three More Enlist For Navy Service

Thomas Leonard Vallely, 1215 East Washington street, was among the three men who enlisted in the United States Navy through the New Castle recruiting station yesterday.

The other two were:

George Graham Taylor, 104½ Lincoln avenue, Grove City, and Peter John Mathias, R. F. D. No. 3, Mercer.

CIONNI RE-ENLISTS

Tullio Cionni, of West Pittsburg, has re-enlisted in the U. S. Navy through the Philadelphia station, officials in charge of the local recruiting office announced today.

Cionni is now serving with the fleet as a machinist mate first class. He was graduated from New Castle high school.

AROUND CITY HALL

Council met in the city building with Public Safety Director D. O. Davies presiding as chairman. Agreements were approved whereby the city will buy a Ford four door sedan from the Francis Motor Car Company for $1,075, for the police department and from Rick Motor Car Company a 1 1-2 ton Dodge truck at a cost of $1,517 for the department of streets.

Men who are serving temporarily as city policemen were reappointed today for another 10 days period. No temporary man was named to succeed Albert Russo who has gone to U S service. He was also a temporary policeman.

Council passed today an ordinance authorizing the repair of the roof of the city-owned nail mill in George street so that it can be utilized should some firm want it for industrial purposes.

Public Safety Director D. O. Davies today recommended and received council's consent to employ John Shepp and George Hawk as temporary firemen.

Because of alleged dilapidated condition council will view a property on Delaware avenue and another on South Jefferson street.

EVENTUAL LOSS OF SINGAPORE IS INDICATED

(Continued From Page One)

Minister Winston Churchill makes a statement to the House of Commons shortly.

Meanwhile, Lord Moyne, secretary of state for the colonies, broadcast to Singapore as follows:

"I want to send this message to the people in Malaya.

"Men, women and children of many races, Malays, Chinese and British from all parts of the empire: In this hour of stern ordeal, be assured that you are constantly in our thoughts. Whether you serve in the armed forces, or in civil defense, whether you are fighting the flames or helping the wounded, all the world is watching your courage and endurance.

"Savage attacks have shattered the peace which you have enjoyed for many generations and have destroyed the fruits of your industry. The struggle is bitter, but there is ranged on our side the whole might of the British Empire and her powerful allies Such a struggle must end in our final victory and in spite of grievous reverses we shall break the enemy's power and restore to you your freedom of life."

The "stabilized line" which may or may not be able to stem the tide of Japan's advance extends from the naval base north of Singapore island's two central reservoirs, through the old race course and down to the village of Pasir Panjang. The race course lies about five miles from the center of Singapore city.

Pressure Continuous

Latest word said that enemy pressure is continuous along the entire front, with the Japanese employing a considerable number of light and medium tanks.

British counter-attacks along the southern portions of the line due west of Singapore city were said to have been successful, but the enemy later reattacked in great force, compelling a new withdrawal.

The reservoirs, according to last official advices, were still in British hands up to yesterday at least. The causeway connecting Singapore with the mainland is under heavy artillery fire, indicating that the Japanese are making some use of it.

Despite Japanese claims to have captured certain airdromes, no island air base is still usable by either side due to the tremendous destruction wrought. British officials had no confirmation to the enemy claim that 75,000 imperial troops had been killed, wounded or taken prisoner.

Genkinger Heads Past Elks Rulers

Fourteen Present To Dine, Enjoy Fellowship Of Own Organization

Louis G. Genkinger last night was re-elected president of the Past Exalted Rulers' association of the New Castle Elks lodge. Abe Levine was renamed secretary.

Fourteen former rulers of the lodge attended the annual dinner of the group in the Elks dining room and afterward conducted a special initiation ceremony for the entire lodge.

Back from Washington, D. C., was Jacob Cosel, president emeritus of the past exalted rulers group and long secretary of the lodge itself. Cosel never misses the annual gatherings and travels far to be present.

Attending the dinner along with Genkinger, Levine and Cosel were Edward J. Ryan, T. Earl Dukes, Stephen Kleckner, Lieut. Col. W. Fulton Jackson, Benjamin Agnew, Harry Harris, Hugh Graham, Wilbert Chapman, Bertram Davis, Clark Buell and C. W. Herman Hess. Verne R. Carr, present ruler was a guest.

Hess acted as exalted ruler for the initiation of a class of 10, while other former leaders served with him.

Recollection Day For Catholic Women

Day Of Retreat, Mission Conducted At St. Joseph's Church By C. D. Of A. Study Club

Successful in every way was the Day of Recollection, sponsored by the Catholic Daughters of America Study Club on Wednesday, at St. Joseph's church.

A large attendance was present, and following the 8 o'clock mass a fine speaker, The Rev. Fr. Fabian Beever, O. P., of the Church of St. Domenick, Youngstown, was heard. Father Beever also conducted the conferences throughout the day.

The Day of Recollection was a day of retreat and mission, and the theme of the day was peace. During services, prayers were offered for the speedy return of peace to the world. Catholic women of this vicinity participated in this act of devotion honoring the Mother of God.

Closing the activities of the day, was a delicious supper served at 5:30 o'clock.

Training 225 At NYA Center

Enrollment At Industrial Center In Cunningham Park Increasing

MANY ALREADY PLACED ON JOBS

Helping to solve one of war-time industries most urgent problems, an adequate supply of trained workers, is the aim of the New Castle National Youth Administration Defense Center.

The current war crisis has revealed that there is a shortage of trained or semi-skilled workers to man the machines for production of needed war materials. This problem of obtaining workers with ability to operate machines so they can take their place in modern, high-speed production work is nearly as serious as the material problem.

To help alleviate this problem, the N.Y.A. last July established a Resident Defense Center in Cunningham Park at New Castle as part of a state-wide defense plan.

On June 27 some 52 boys plus staff of N.Y.A. center officials, arrived at Cunningham Park. They began the task of bringing in unemployed and out-of-school Youth and transforming them into productive workers who would prove an asset to war industry.

Over 225 At Present

Right now, according to George Keats, director of the New Castle Center, more than 225 young men and women can be found in this center engaged in machine, sheet metal, and welding. Courses are also offered in auto mechanics and radio. These youth come with the ambition to gain sufficient experience as fast as possible in order to get themselves defense jobs. These young people have come from all over the western part of Pennsylvnaia. They have been given a complete medical examination and counseled as to their vocational ability and desires. At this center these young men and women are acquiring the fundamental concepts of shop work, shop training, and shop habits by actual production work.

This production work is supplemented by several training courses given under supervision of the State Department of Public Instruction and a special course offered in cooperation with the Curtiss-Wright company.

To date the center has contributed trom 80 to 100 youths to the industries in this section. At the present time an average of approximately 20 youth per month are leaving this center to join Pennsylvania's industrial army.

While the youth are at the center they are paid $30 a month, of which $20 is returned for room, board, medical, and other expenses. Thus, one of Uncle Sam's investments in the effort of the democracies to stamp out the evils of totalitarianism is already paying dividends.

Mr. Keats said that since the United States entered the war, all efforts at the center have been intensified in preparing young man and women for the jobs waiting for them in war work.

Any male or female youth between the age of 17 years, 8 months, and 24 years of age who desires to avail themselves of this work-experience opportunity should contact their nearest N.Y.A. office, or United States Employment Service office for additional information.

Hardy Motorist Makes Nicaragua

MANAGUA, Nicaragua, Feb. 12.—Mrs. Constance Jordan Henley, a 58-year-old grandmother of Glendale, Cal., has arrived in Nicaragua after driving a 1940 model American station wagon through most of the South American countries and part of Central America.

She reached the town of San Juan Del Sur Feb. 6, her automobile broken down and drawn by three span of oxen, but she hoped to reach this capital, have the car put into shape and to proceed northward, through Central America and Mexico, to the United States.

Mrs. Henley, over a year ago, started driving from Rio de Janeiro, Brazil. She explored much of Brazil, Uruguay, Argentina, Chile, Bolivia, Peru, Ecuador and Colombia. She knew no Spanish or Portuguese when she started the trip with her nephew, Joseph S. Henley, 22.

Can Communicate With Relatives In Occupied Zones

Inquiry Service Of American Red Cross Has Been Extended, Chapter Told

R. F. Davis, chairman, of the Lawrence County Chapter, American Red Cross, has been advised by the National office of the American Red Cross of an expansion of the Inquiry Service of the Home Service Department of the Lawrence Co. Chapter.

Individuals or families having relatives or friends in foreign countries who are unable to communicate with them by the usual means due to this country being at war, may now through the Red Cross and its international organization, exchange messages of a purely personal or family nature. This is one of the finest pieces of work the Red Cross thus far has undertaken, for it now brings many families in the United States together with their relatives in enemy occupied countries.

Mr. Davis wishes to impress upon the Lawrence County membership of the Red Cross that all are entitled to this service. Miss Thyra Jane Fulton, Executive Director of the Home Service Department, brings out the differences between inquiries and messages.

"Inquiries are questions about the safety or location of persons abroad. They will be accepted by the Red Cross when normal means of communication are suspended or when the inquirer has been unable to get a response through the regular channels.

"Messages are notes which are of a purely family nature and cannot give advantage to the enemy. They may be sent through Red Cross channels to persons in enemy, or enemy occupied territory. It is very necessary for the Red Cross of Lawrence Co. to exercise care and good judgment in determining the frequency with which messages may be sent by anyone individual. These cannot be taken over the telephone.

An inexpensive disinfectant for scrubbing or washing is made by adding 1 teaspoon of carbolic acid or turpentine to every bucket of hot water. Turpentine is a powerful disinfectant and dispels odors.

Tired Kidneys Often Bring Sleepless Nights

Doctors say your kidneys contain 15 miles of tiny tubes or filters which help to purify the blood and keep you healthy. When they get tired and don't work right in the daytime, many people have to get up nights. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder. Don't neglect this condition and lose valuable, restful sleep.

When disorder of kidney function permits poisonous matter to remain in your blood, it may also cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, swelling, puffiness under the eyes, headaches and dizziness.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Pan-American Tours Are Urged

Urges Encouragement For South Americans To Visit United States

STATE COLLEGE, Pa., Feb. 12.—Establishment of a "tourist dollar," to encourage South American travel to North America, was advocated today by Dean Edward Steidle of the School of Mineral Industries at the Pennsylvania State College.

Dean Steidle has just returned from a 22,000-mile trip to South America as Pennsylvania's delegate to the first Pan-American Congress of Mining Engineering and Geology.

"A tourist dollar, which could be purchased at a substantial discount from the current exchange, should be accepted in the United States for transportation and ordinary living expenses," he said. "The expense of visiting the United States might thus be reduced as much as 40 per cent."

He also recommended that transportation between the Americas be improved.

"The completion of a Pan-American highway, by which all the countries can be reached, is highly desirable," he declared. "A far more extensive exchange of students should also be arranged, and greater attention should be paid to teaching Spanish and Portugese here."

Expressing the hope that the number of students from the United States, enrolled in South American universities and teachnical schools, would steadily increase, Dean Steidle added that our youth are entitled to the real answers to questions of building permanent peace and sound social and economic order in the Western Hemisphere.

He warned against judging life in South America by the movies, pointing out that such pictures often give as false impressions as "wild west" movies give of the United States.

Asks $300,000,000 To Aid Idle Labor

WASHINGTON, Feb. 12.—Congress was asked on Wednesday to provide $300,000,000 quickly for "cushioning the shock" of unemployment resulting from conversion of plants to wartime production and for training workers needed in defense industries.

Sidney Hillman, War Production Board labor director, and Paul V McNutt, federal security director, told the House ways and means committee that the federal government must step in quickly to supplement state unemployment benefits they described as inadequate.

Legislation being studied by the committee would authorize an appropriation of $300,000,000 so distributed that displaced workers would receive 120 per cent of their weekly state unemployment compensation allowances for a maximum of 26 weeks. The federal govcent. and the states 100 per cent. as ernment would contribute 20 per long as the state laws permitted, then the government would make the full payments.

The measure also would provide for travel allowances for eligible workers moving to a new job and would set up a scheme of training workers for wartime work.

Oil City Board To Halt Hazing

OIL CITY, Pa., Oil City's school board has put teeth into regulations which will bring an end to hazing in the senior high school.

Superintendent Vaughn R. De Long was empowered to expel any student who drives a car containing another student placed in the car against his will; to expel any student found guilty of agitating class fights; to suspend any student participating in class fights until his parents guarantee he will not again be a part to such activity.

For several weeks complaints have come to school officials that students were being taken for "rides" to remote places and left there to walk home.

This time let's see to it that soldiers aren't charged stiff prices for things the people contribute free.

VALENTINE CAKE

1 cup shortening
4 eggs
2 cups granulated sugar
3 cups cake flour
4 teaspoons baking powder
1 teaspoon salt
1 cup milk
1 teaspoon vanilla

Separate eggs. Cream the shortening, add the egg yolks and cream together. Add the sugar gradually and beat until light and fluffy. Sift the flour, baking powder and salt together three times. Add alternately with the milk to the creamed mixture, blending well after each addition. Whip the egg whites until stiff and fold into the batter.

Temperature 375°
Time 40-45 minutes

WHITE SATIN ICING

2 egg whites
1½ cups granulated sugar
1 tablespoon lemon juice or 1 tablespoon corn syrup
4 tablespoon water
⅛ teaspoon vanilla
dash of salt

Put all of the ingredients with the exception of the vanilla into the top of a double boiler. In the bottom part of the double boiler bring water to a rolling boil. Stir the mixture in the top part of the double boiler until the sugar dissolves. Place it over the boiling water. Allow to cook for five minutes without stirring. Remove the double boiler from the range. Beat icing over the hot water for ten minutes with your electric mixer on "high" speed. Add the flavoring.

FUDGE CAKE

½ cup butter
1¼ cups sugar
2 oz. melted chocolate
2 eggs
1 teaspoon vanilla
½ cup milk
2 cups cake flour
1½ teaspoons cream of tartar
½ teaspoon salt
1 teaspoon soda
¾ cup boiling water

Cream butter and sugar until light and add melted chocolate. Add well-beaten eggs and vanilla. Sift and measure flour and sift 4 times with salt and cream of tartar. Add alternately with milk. Measure soda in cup and add boiling water. Add quickly to cake and stir. Pour into well-greased 10-inch square pan with wall 2 inches deep and bake 40-50 minutes at 325° temperature, or use 350° temperature for two 8-inch layer pans and bake 25-35 minutes.

Cover with Sea Foam Frosting; decorate with maraschino cherries and animal crackers.

LOG ROLL

3 eggs
¾ cup sugar
6 tablespoons cocoa
1 teaspoon vanilla
1 teaspoon baking powder
½ cup pastry flour (sifted before measuring)
1 cup whipping cream

Grease well and dust with flour a large jelly roll pan. Beat egg yolks until thick. Add to them half of the sugar which has been mixed with the cocoa. Add vanilla. Beat egg whites stiff and add to them the balance of the sugar. Fold into the yolks. Mix carefully. Sift flour with baking powder; fold into the batter. Pour into jelly roll pan. Smooth out the edges of the pan. A few moments after taking from oven turn out on towel. Spread with whipped cream. When cool, cut off edges, roll up, then ice. Temperature 375°. Baking time, 15 minutes.

SEA FOAM FROSTING

½ cup light brown sugar
1 cup granulated sugar
¼ cup water
2 tablespoons strong coffee
¼ teaspoon cream of tarter
2 egg whites
⅛ teaspoon salt
¼ teaspoon baking powder

Boil sugar, water, coffee and cream of tarter without stirring until syrup spins long thread at 248°. Remove from fire; beat egg whites until stiff. Add syrup very slowly to the egg whites, beating continuously; add salt. Beat until thick; add baking powder and continue to beat until thick enough to spread on cake without running.

TUTTI-FRUITTI

Preheat oven 375° for 30-35 minutes.

¼ cup butter
1½ cup sugar
3 cups sifted cake flour
3 teaspoon baking powder
¼ teaspoon salt
¼ cup cocoanut
15 maraschino cherries cut in quarters
4 egg whites
1 teaspoon lemon extract
cold water

In mixing bowl, add butter, 1 cup sugar, 2¼ cups flour in which baking powder and salt have been sifted. Beat three minutes. Add cold water to juice from cherries (about ½ cup) to make 1 cup of liquid. Add extract. Add cocoanut and cherries to ¼ cup of flour and gradually add the ¼ cup of sugar. Fold into cake mixture. Pour batter into two well greased and floured 8-inch round cake pans.

Use White Satin Icing and decorate with maraschino cherries and flags.

B. French Johnson, chemist for the City of New Castle Water Company, of Wallace avenue, has returned from Johnson City, Tenn., where he attended the funeral of his father, John H. Johnson, 70 years, who passed away last week, fololwing a stroke. Mr. Johnson was known here through visits at the home of his son.

It is not known definitely just when castes originated in India. The first records available are of the Vedic Arya period, about 1200 B. C., and castes were then in existence.

PENNIES FOR RED CROSS.

(International News Service)

SARATOGA SPRINGS, N. Y., Feb. 12.—The $10 in pennies which Robert R. Ritchie donated to the Red Cross here represented a thousand wishes of visitors to Ritchie Park, who tossed the coins into the wishing well there during the summer. Ritchie says that as many said their wishes were for the war to end soon, he was donating the money to war work. A year ago the $10 which the well received was turned over to Bundles for Britain.

Minimum Prices For Tomatoes And Peas For Canners

State War Board Of Department Of Agriculture Makes Announcement

(International News Service)

HARRISBURG, Feb. 11. — The state war board of the department of agriculture has established minimum prices for tomatoes and peas bought by canners in an effort to assure farmers a fair return.

Canners who wish to sell these products to the government under its war-time purchase program will be required to pay $22 per ton for No. One tomatoes and $14 per ton for the No. Two grade. Announcement of the fair price schedule was made by James E. Walker, chairman of the state war board.

The prices for the two grades of peas commonly produced in the state were set at: Alaskas, extra standards, $97 per ton; standards $45; sub-standards $13; sweets, fancy, $82 per ton, extra standards $63; standards $20.

The prices were set according to the rules of the department of agriculture that they be not less th[an] $5 per ton for canning tomatoes and $17.50 for canning peas over the prices paid to growers within the state in 1940.

"However," Walker pointed out, "these are minimum prices and do not constitute ceilings. Any increase over these prices is a matter for negotiation between canners and growers."

As peas and tomatoes are considered among the most vital products in the food-for-freedom program, the department of agriculture is asking for 40,000,000 cases of canned tomatoes and 38,000,000 cases of canned peas this year. This food will be used to meet increased civilian and military needs, as well as lend-lease requirements.

To become eligible to sell canned tomatoes and peas to the government under this new purchase program, canners must certify that they have contracted to pay growers at least the minimum prices. This certification can be obtained by submitting grower-contracts to the state war board.

Dies Committee Life Is Extended Until Next Year

(International News Service)

WASHINGTON, Feb. 12.—After listening to opposition testimony for three days, the House rules committee on Wednesday approved a resolution extending the life of the Dies committee investigating un-American activities until next January.

Without such legislation the committee would expire April 1. The resolution was sent to the floor for three hours of general debate with indications it will precipitate an extended row.

Rep. Sabath (D) Ill., chairman of the rules committee, said that a "gentleman's agreement" had been made with Rep. Dies (D), Tex., that if his committee is extended "it will do nothing to embarrass relationships between this country and the Soviet Union."

Before the committee action, Rep. Marcantinio (AL) N. Y., appeared as a witness, charged that the Nazi propaganda machine was using statements of Dies and asserted "if Adolf Hitler were in America he certainly would vote 'aye' on this resolution."

The New Yorker also contended that he had "confidential information" that the state department had not prevailed on the Dies committee, as Dies has said, to withhold information about subversive activities at Pearl Harbor before the Japanese attack. He charged the Dies committee with "a gross dereliction of duty" in failing to bring out this information if it had it.

Lightning Helps To Fertilize Soil, Engineers Report

(International News Service)

PITTSBURGH, Feb. 12.—Lightning, regarded by man as a never-ceasing foe, is, in reality, a friend helping to fertilize the soil, according to Westinghouse engineers.

Scientists of the Westinghouse laboratories have revealed that the 16,000,000 electrical storms that occur each year, many of which cause children to crawl beneath the bed spreads and older folks to disconnect electrical equipment, actually perform beneficial work in enriching the soil and keeping the "earth's battery charged."

"The action of the thunderbolts," experts said, "releases nitrogen from the air and in the form of nitric acid, falls in rain drops to the ground. Through this process, lightning annually produces nearly 100,000,000 tons of nitric acid—more of this soil builder than is manufactured by all the world's fertilizer plants."

They also reported that the thunderbolts, visible actors in the spectacular show, restore the electricity that constantly seeps from the earth to the clouds and thus keeps the soil charged.

"To offset this loss of electricity," they added, "the earth's surface must be struck by lightning at the average rate of 50 times a second, or about 2,000,000,000 times a year."

CALM PETS WITH BROMIDES

(International News Service)

NEW ORLEANS, Feb. 12.—Pets are not being forgotten in the New Orleans war effort. The Society for the Prevention of Cruelty to Animals has urged all dog and cat owners to secure a supply of sodium bromide tablets to be given to the Rovers and Tabbies should they get nervous during an air raid.

The planes that will win the war haven't been designed yet. When the Japs dig in, only 16,000-mile bombers will blast them out.

Former Police Chief Of Tokyo Held In West

Entered U. S. Several Months Ago As Buddist Priest, Reports F. B. I.

(International News Service)

SAN FRANCISCO, Feb. 12.—A former chief of police in Tokyo who entered the United States several months ago as a Buddhist priest was among a new batch of enemy alien suspects held by the FBI as the result of smashing raids in a half dozen towns and communities in the strategic Monterey county area.

More than a score of enemy aliens were trapped, it was announced at F. B. I. headquarters, and a huge quantity of contraband seized, including firearms and ammunition.

At the same time, it was announced that the F. B. I. had in custody a former New York German bund member on suspicion of espionage, and a Philadelphia seaman on suspicion of sabotage.

Nearly 150 G-men and civilian officers took part in the day-long raids, according to Nat J. Pieper, agent in charge of the F. B. I. for the San Francisco region, who personally led most of them.

The raiders struck without warning, centering their first raid on Salinas where the Buddhist Temple was searched and three "priests" taken into custody.

The temple was in the heart of Salinas' Japanese colony, and the G-men said they found an assortment of maps, radio microphones and mimeograph equipment.

The three priests were headed by Koyo Tamanaka, 43, who was formerly head of the police department. Agents said he came to this country several months ago with his two colleagues, Bunyo Fujimura, 32, and Hoshin Fujikado, 32.

Westminster Back In Title Picture

Titans Among Contenders For Eastern Laurels; Situation Muddled

SIX GAMES LEFT ON TITANS' CARD

Again seated at the round table reserved for Championship minded collegitae dribblers, Westminster's cage heroes are determined to remain in that pew by capturing the last half dozen skirmishes of an exceptionally robust schedule.

The New York writers, who have an important say when the time comes to pin chevrons on the lapels of collegiate performers, dug up a few polysyllable adjectives following the Titans' thorough annihilation of West Chester and Millersville.

Display Strength

While the 80-47 count was more or less expected in the Chester game, the 63-46 thumping piled up against Millersville was a fooler. Last year Westminster had to give to the last inch to eke out a 51-48 win over the same tribe.

As the Westminsterites sharpen their eyes for the approaching Brooklyn and Villanova clashes ahead, the eastern championship situation is muddled.

In victories won, Westminster (12-3) is alongside of Long Island (17-2), N. Y. U., C. C. N. Y., St. John's, Penn State, Duquesne, Dartmouth, Seton Hall, Canisius, Rhode Island, Syracuse and Cornell each have dropped two or more contests. Since our court heroes in Lawrence county have been on the losing side only three times, Einstein isn't required to establish the fact that the race in the east is wide open.

The club fortunate enough to clean up the caboose end of the card victoriously will undoubtedly bask in championship row.

After perusing the situation, Coach Grover Washabaugh, a master spokesman, methodically laid the stuff on the table and told his lads:

"What place Westminster holds in the basketball world this season depends on you boys. Those three defeats mean nothing, since practically all eastern teams have dropped two or more decisions. Those that have not, face trying days ahead."

Boys Set Goal

The Titan squad has since huddled, joined hands and vowed to sweep aside its remaining foes—Brooklyn, Villanova, Pitt, Bethany, Duquesne and Carnegie Tech.

The talent is there; so is the ever important reserve material, not to mention spirit.

Now that they have set their goal, the blue and white shirted flippers are training like Trojans for their next two encounters which will have an important bearing on the Titans' status in the cage world this season.

Monday night Westminster goes big time, facing Brooklyn college amid the lights and fanfare of Madison Square Garden. Two nights later, Villanova will be met in Philadelphia.

Polish Falcons Suffer Defeat

The Polish Falcons were defeated at Sharon last night by the Sharon Buhl club team 49 to 45 in an extra-period game. At the half the Sharon team held a lead of 17 to 14.

Stars in the Sharon line-up were Johnny Krivosh and Toten, with Eddie Cash Koszela the best for the locals. On Sunday the Falcons will play the New Kensington Business Men, and the Factor Variety girls will play the Stella Walsh team in the preliminary.

CLEVELAND PICKED

CHICAGO—This summer's second all-star major league baseball game, July 7, the day after the one at the Polo grounds, will take place at night in Cleveland's Municipal Stadium.

TO REPORT LATE

Bud Piel, Michigan track captain, won't have to report for active duty with the Naval Air Corps until June.

HERE AND THERE IN SPORTS LAND

Billy Conn will box Tony Zale Friday night in New York . . . They're beginning to steam up a Zivic-Cochrane welterweight title bout for next summer . . . The Dukes took it on the chin last night, Villanova winning, 40-33, in basketball . . . Oil City won't quit baseball. Five hundred of 1200 ten-dollar shares to wipe out indebtedness have been sold.

West Virginia decisioned the Army 57-40 in basketball last night and Michigan smacked down Tony Galento's plea for a traveling referee's license. Michigan banned Tony after his four-round kayo of Nate Brown in 1939 and the ban has never been lifted . . . Lexington will have its usual trots this fall.

Grove City Is Preparing For Allegheny Game

(Special To The News)

GROVE CITY, Feb. 12.—Impressed with the all-out effort made by the Grove City squad in defeating Slippery Rock Tuesday for the first time since 1939, Coach Jim Loveless told the boys he would hold only light drills in anticipation of the Allegheny game at Meadville, Saturday.

Moore and Hulton, the midget forwards who combined to tally 27 points against the Rockets, showed the effects of the most hectic game of their career, in bruises and sore muscles, while all the regulars welcomed a rest. With only light work, Coach Loveless anticipates no trouble in pointing his squad for another all-out effort against Grove City's oldest basketball rivals, Allegheny.

Seniors continue to dominate the Grovers, despite determined efforts of several youngsters to earn starting berths. Four seniors and a junior constitute the usual line-up with Sophomores Cliff Smith, Bill Easton and George Steck performingn capably in replacment roles. Several promising youngsters have had little opportunity to show their wares because the Grovers have been hard-pressed in nearly every game while running up a record of eight victories in eleven starts.

In their first meeting of the season here, Grove City registered a 38-28 victory over Allegheny, a late rally turning the trick. The rivalry, oldest in the Grove City records, dates back to 1899, when the 'Gators trounced the Grovers soundly, 32 to 9. In recent years, the rivals have established a routine of splitting the two games played each year. Last season, bad weather postponed one game, and the Grovers won the other, 39 to 26.

BALTIMORE STARS

Herk Baltimore, New Castle athlete playing center on Penn State's crack cage team, led his teammates to an impressive 46-33 victory over Temple Wednesday night at State college. The local boy contributed 15 points to cop scoring honors. State has lost but two games.

West Point Line Coach Found Dead

(International News Service)

ALEXANDRIA, Va., Feb. 12.—Harry O. Ellinger, line coach of the West Point football team, died Wednesday at the home of Rep. Hebert (D) La., in Alexandria.

Hebert, a close friend of Ellinger's, said he discovered the victim's body this morning. Alexandria Coroner Dr. John A. Sims, after an examination, expressed belief Ellinger suffered a hemorrhage.

Lester Leasure Defeats Fitch

Arbie Bowie Stops Baby Face And Shelton Beats Donelli

AL LEASURE WINS FROM WAYNE DILLON

Norman Fitch of Chester, W. Va., lost a three round decision to Lester Leasure of this city in a fast three round middleweight amateur fight last night in The Arena and Nick Wargo of Pittsburgh outpointed Rollin Horne of Niles in another three round battle. They were two of the eight fights which were for the benefit of the Infantile Paralysis fund.

Les and Norman put up a good fight and won the plaudits of the crowd. Frankie Cordy, a favorite here, made the error of playing basketball Tuesday night and according to Trainer Matt MacGowan was injured on the floor court. He did not appear against Wargo and that is why Rollin Horne took over the task and consequently dropped the award to Nick.

Baby Face Leasure was knocked out by Arbie Bowie of Aliquippa in the third round. It was Baby Face's second defeat in three fights but his brother Al came through with a "kayo" over Wayne Dillon of Chester, Va., in the opening stanza.

Billy Shelton of Pittsburgh decisioned Melio Donelli of Youngstown in three fast rounds. The decision was mooted. After the judges differed, Referee Sam Leyshcok cast his vote in favor of Shelton who previously had fought Horne here.

The same situation prevailed after Red Bardo of Pittsburgh and Bill Grumbacker of Youngstown had gone three hard rounds. Chuck Jackson of Pittsburgh took the flyweight fight frm Dick Roach by a TKO in the first and Mose Cunaki of Niles stopped Gene Wolfe of Chester in the opening chapter.

Winter conditions had a tendency to keep the crowd low last night. However, the Infantile Paralysis fund will be augmented by 50 per cent of the net received turned over by the Jefferson A. C. last night.

The referee was Sam Leyshock of Farrell and judges, Phil Greer and Police Lieutenant Tommy Jones. The announcer was Charles Walters and timekeeper, William Fazzone.

Norman Ross of Butler, a deputy commissioner of boxing represented the state and Ed. Fritz represented the A. A. U.

NEW YORK, Feb. 12.—As we sit back on our haunches nibbling at a highball with a bunch of rogues or settle down to a meal in more genteel surroundings with our nearest of kin we might just dismiss pole vaulting as a whacky form of ahtletics and let it go at that. It really doesn't make much sense when you look at some young stripling going across the bar at a few feet and a few inches.

But the way Cornelius Warmerdam, the California Dutchman, does it makes pole vaulting a specialty far beyond the grasp of the ordinary mortal. It's almost like flying an airplane.

He is the only man ever to have crossed the bar at 15 feet or better and he holds all the records in vaulting, yet modestly he says that a man will come along soon to make him look like something nailed to the ground.

Not Overly Big

Warmerdam isn't overly big. He stands just at six feet and weighs about 170 pounds—despite previous "official" reports crediting him with 185. And he is not particularly fast being about a 10.5 man in the 100.

"Some time soon a big, strong, fast vaulter will come along and when he does my best efforts will be wiped out as though they never existed."

I haven't the faintest idea what started all this, but you can rest assured that the foregoing comes from the greatest pole-vaulter in the history of track and field.

Now you can settle back on your haunches, nibble at your highball, and remember, if you are interested, that some day—and probably soon—a gent will come along to lift the pole vault ceiling to 16 feet, after which they will go on to 20 feet. I don't know what this will prove.

But the taller and faster man must have an edge. Warmerdam holds his pole at 13 feet, 8 inches. If he deviates from that he is licked. A taller man can grasp it higher and if he has more speed besides he can get over the bar at a greater height. Warmerham admits all this. He knows that no matter how high he may climb, there will be a stronger, taller, faster man to beat him or the records he will leave behind.

Conn Favored

Perhaps everybody is wrong after all in conceding Tony Zale some kind of a chance against Billy Conn Friday night, for the odds today were one to five on Conn. Either this is a very poor match or a lot of so-called competent observers are cockeyed.

Up until now most of us have been bleating to the effect that Conn was taking a chance on loss of prestige with a Joe Louis bout coming up in June, but if Zale has no better than a 5 to 1 chance, perhaps the match shouldn't have been made in the first place.

Despite all that, I am convinced that Conn is picking no sucker in Zale and that before the evening is over will have his hands full.

Don't ask me would I bet on it. I don't bet on fights.

Bessemer Nears Section 20 Title

Triumph Over New Wilmington Unclouds Smoky Atmosphere In Race

NEW CASTLE AWAY FRIDAY EVENING

Results Tuesday night unclouded the otherwise smoky atmosphere existing in the sultry Section 20 sprint.

With the "shut down" sign to be tacked up in 12 days, Bessemer high's spirited troupe seems destined to wear the crown won last year by Wampum high.

Bessemer Has "It"

The red and black scanty-clads, bundled with poise, coolness, speed and ability to whiz the ball around cleverly, are championship bound barring an about face. Leading the tour with an 8 and 2 mark, not counting a Mt. Jackson high forfeit which is forthcoming, Bessemer can bat .500 from herein and be assured of at least a deadlock.

In view of the fact that Bessemer's remaining loop frays call for settos with Princeton, East Brook, Shenango and Union, it doesn't seem possible that the Cement City entry will muff the ball. The New Wilmington conquest just about wrote finis to the title hopes of the "Greyhounds" and Wampum.

Friday night's card is packed with lure. Bessemer invades Princeton and figures to romp with ease.

New Wilmington high will face East Brook's always dangerous flippers at New Wilmington.

Wampum high, currently sharing the second place slot with New Wilmington, struts its stuff at home again, this time against Shenango Township high.

Union Township hops across the county for a visit at Mt. Jackson high in a game which should produce an abundance of thrills.

New Castle Away

While the Section 20 rivals dribble along county courts, well rested and confident New Castle high drops in to Beaver Falls high gymnasium for a clash with Beaver Falls high in a Section III melee.

With Ambridge ready to crawl back into the top post, the Bridenbaughmen must win to enjoy the privacy of first place.

Back home following a strenuous but successful four-day eastern tour, Westminster College's popular Titans are rehearsing for two of the most important tussles on the date book / The tilts, both carded away from home, are next week bookings and pair the Titans against Brooklyn College at famed Madison Square Garden next Monday and Villanova on Wednesday night in Philadelphia.

Three-Cornered Battle Is Seen In G.O.P. Ranks

(International News Service)

PITTSBURGH, Feb. 12.—The reported selection of Major General Edward Martin as the state organization's candidate for governor increased prospects today for a three-cornered fight for the Republican gubernatorial nomination.

Reports here said General Martin's candidacy is contingent on whether the war department will release him from active duty. He is in charge of civilian defense activity in the Fifth Corps Area, Fort Hays, O. Prior to that, he had served as head of the 28th Division, P. N. G.

General Martin comes from Washington county, and reached the height of his political power in 1932 when he served as state chairman of the party, and chairman of the Pennsylvania delegation to the national party convention.

Other potential candidates in the field for the gubernatorial nomination include U. S. Sen. James J. Davis, who has refused to commit himself until later on in the month, and the standard-bearer of the "new guard" element headed by P. Stephen Stahlnecker.

Stahlnecker announced that he would disclose his organization's candidate Friday.

SPORTS WORLD RAMBLINGS

Thursday "p. m." sports bits:

Archie Shoup Jr., his daddy is Bessemer's popular chief of police, will soon leave for (not permitted to say) to join the Royal Air Force. Shoup, my nomination for one of the classiest all around athletes in the annals of Lawrence county sports, has passed all the prescribed tests and awaits call.

Aviator Archie has left for Macon, Ga., for a brief visit with his brother, Lieut. Harry Shoup, ex-Westminster ace athlete now serving as an Army Air Corps instructor. Archie promised to clip a couple of slant-eyed rodents for me if he gets a crack at them. God bless and help a guy with nerve of steel.

Congratulations are in order for one of our most intimate associates, Albert F. "Pop" Kreuz, who has served as chief instructor of the free baseball school here for the past two seasons. Personable Al has been named as new assistant varsity baseball coach at Pennsylvania university. For the past half dozen years Al has held the post of freshman diamond pilot in the Quaker school.

Walter Kaskolka, Union High's line wrecking human tank, will be interviewed by Bob Higgins, Penn State football coach, over the weekend. The Scotland Lane husky will get a look at the campus in which he may spend his collegiate career.

I've been trying to figure out why Billy Conn and Tony Zale are going to fight tomorrow night. The best Conn can do is win another fight and stands the chance of losing public esteem. Personally, I don't believe Billy will ever be the fighter he was before he absorbed that shelling last June. Mike Jacobs and Johnny Ray know what they are doing, I imagine.

The Philadelphia Phils, please, from now on, informs the club's publicity board. Webster states that the word phil comes from philo meaning which see. If the team's moguls infer that the Phillies, sorry, can see, well that depends on the object. When it comes to baseball, I think the Phils see spots before their eyes—possibly because they have spent too many seasons in the ratskeller.

St. Vitus Tops Second U. P. Five

New Castle Church League Is Deadlocked Result Of 32 To 30 Vivtory

St. Vitus church basketball team made up for the defeat handed them by the Second U. P. team by winning last night in a church league game at the "Y" 32 to 30. The St. Vitus win puts the teams into a tie for first place with the Second U. P. team.

In the second game the Epworth team defeated the Third U. P. team 39 to 24, and in the third game the Croton team defeated a Central Presbyterian team 34 to 27, with Sheehy starring.

Two Resign From Liberal Party

(International News Service)

LONDON, Feb. 12.—Leslie Hore-Belisha, former secretary of state for war, and two other prominent members of the Libertl party resigned from their organization today in protest against the party's policies.

The others were Edgar Granville and Sir Henri Morris-Jones.

The latter two had been called on the carpet by Liberal supporters of Prime Minister Winston Churchill for abstaining from voting in the recent confidence motion in the House of Commons.

Granville and Morris-Jones charged that party policies had frustrated war efforts and led to "loss of valuable lives and vital positions".

A whole series of events "culminating in the grim situation at Singapore" might have been avoided by a more realistic view, they said in a joint letter of resignation.

Hore-Belisha dropped out of the party in sympathy with their attitude.

LIFE SENTENCE

ATHENS, O., Feb. 12.—Kenneth Parsons, 22-year-old farm hand, pleaded guilty Wednesday to the rifle slaying of Mrs. Etta Collins, 47, and was sentenced to a life term in Ohio Penitentiary on a second-degree murder charge.

Common Pleas Judge O. F. Rowland imposed the penalty after Parsons had been found sane.

Parsons said he did not know why he killed the woman.

There's a whale of a wallop in a News want ad. When you send one into action, you can depend on quick results!

FROM ME TO YOU

By MESEEALL

A person just can't sit around and day dream all his time away . . . especially right now. We must all keep fit . . . and according to some reports from very good sources there is one pleasant way to take exercise . . . and that is to dance. So why not take the little woman dancing this coming Saturday night. For the younger crowd we suggest the Builders Dance at The Cathedral, we have reason to know that those who attend will not be disappointed . . . a good band has been engaged and a good crowd plans on attending. This Valentine Dance is just the thing to set young fellows in right with their best "gal" . . . and for those who feel like going into the pocket a little deeper we suggest the Charity Ball at the Field Club . . . all monies left over will be used to brighten up the Jameson Hospital . . . one never can tell when the four walls of that building will be called home for weeks at a time . . So think about dancing friends . . . The Builders Dance ticket comes at $1.10 per couple, tickets in advance or at the door so you can't miss and the Charity Ball Ticket comes at $5.50 per couple . . . Let's dance.

It seems that under the present situation and for that matter at all times it would be possible to make proper arrangements to have the flag on the diamond raised and lowered each and every day. We have seen this flag fly twenty-four hours and there hasn't been a shot fired within miles. The stars and stripes mean a lot to this writer and to millions of other people in this good United States. Let's remember little things that go to make a country strong. Will the proper authorities please take note of the above.

* * *

City Treasurer C. C. McKibben used the classified ad columns the other day . . . he said "I never knew that so many people wanted used articles, why we sold everything within three hours after the paper was on the street" . . and hundreds of others are saying the same thing . . . why don't you cash in on used this and that, buy new merchandise with the money saved or better still spend part of it for your needs and the balance for defense stamps and bonds. Just drop down to our Want Ad Store here on North Mercer Street . . . it only takes but a moment to write an ad . . . and the cost is smaller yet. Stop in next time your down town.

Dr. H. E. Helling Talks To Students

ELLWOOD CITY, Feb. 12.—In case of an emergency, stop and think was the advise given to the students of the Lincoln building yesterday by Dr. H. E. Helling who addressed them over the intercommunication system on the subject "Physically fit and mentally awake."

This was one of a series of addresses being given during Boy Scout week by leading civic and religious leaders of the community on the different parts of the scout oath.

Of utmost importance in case of an emergency is the necessity of keeping calm. "Train yourself to keep cool. Do not become excited and alarmed when you are called upon to render first aid or help in case of a bad accident. The Boy Scouts are working along this very line making it possible for you boys to get the training you might need some time and when you need it you will know what to do. Do not have them say of you that "You lost your head, that you became rattled". You know what this means and to be a good scout means that you will not become rattled and excited when the test comes.

Dr. Helling was introduced by District Chairman Boyd Barrett who reminded the students that every troop in the district is offering instructions to the Boy Scouts that will make it possible for them to assist in an emergency by rendering first aid, carrying and sending messages and assisting women and children in times of crisis. Today, Chief of Police Hartman, will talk to the students on that part of the scout oath that says—I will do my best to obey the scout law. Friday, Rev. Osterhouse will talk on the subject of Morally Straight.

War Production Training Course Is Concluded

ELLWOOD CITY, Feb. 12.—The War Production "Training within Industry" school closed yesterday after three day 8 hour session per day program. Mr. Frank Singer, formerly personnel director of the Bell Telephone company and now with the War Production board stated that it was the finest class in all the 19 courses he conducted throughout Western Pennsylvania.

F. E. Moore, president of the local Chamber of Commerce presented certificates to Ray Iseman, James Croft, Charles Relph, L. R. Davis, V. V. Johnston, S. E. Elder, and Walter Baisch of the National Tube company, O. C. Kamperman of the Aetna-Standard Engineering company, A. E. Milbrath of the Mathews Conveyor company, Jack Zeigler of the Ellwood Forge company, William O. Chandley of the Beaver Enameling company, Frank Mahoney of the Ellwood company and C. Dale Hogue of the United Tube company.

The Chamber had the entire group with the instructors Mr. Frank Singer and Mr. George Pappan as their guests at noon luncheon.

Those who received their certificates will act as instructors for their industry in instructing new men how to do their job faster and better in the interest of national war production.

FRISCO AUXILIARY HAS CARD SESSION

ELLWOOD CITY, Feb. 12—Another successful card and bingo party was held on Wednesday afternoon at the Firemen's hall at Frisco, by the Auxiliary with arrangements in charge of Mrs. Nellie Klindienst.

Awards went to Mrs. Edward Bookamer, Mrs. Matilda Swick, for bingo; Mrs. Elizabeth Anderson and Mrs. Kenneth Bollinger, for 500; and the door prize to Mrs. Ruth Price.

Mrs. Albert Blazen and her committee served pleasing refreshments.

METHODIST BOARD MEETS AT CHURCH

ELLWOOD CITY, Feb. 12—Officers and teachers of the First Methodist church Sunday school gathered last evening at the church for a tureen dinner with their families as guests.

A tempting dinner was served to 35 by the various women, after which Superintendent Paul Reynolds conducted the meeting Rev. Paul E. Trimpsey, pastor, gave a fine talk in which he stressed various plans for maintaining and building up the membership.

Lions Will Aid In Metal Collection

Plans For Roundup Of Scrap Metal On Next Wednesday Being Made

ELLWOOD CITY, Feb. 12.—Lions club members will don overalls, cover-alls or any old clothes they can find on this coming Wednesday to aid in the scrap metal drive which will be a city-wide event on that day. If every citizen in town will at least scrape up 50 lbs. of old metals, such as iron, lead, copper, zinc and so-forth, Mr. Hitler and his other two cronies will be on the run. If you just have five pounds or 10 pounds lying around the house be sure to place it out in front of your home on Wednesday and the Boy Scouts will be on the job lining it up for the trucks that will come around manned by Lions Club members.

The scrap will all be dumped on the platform directly behind the Premium Supply company where it will be sorted and loaded in a gondola for shipment to local steel mills. If any citizen has a load of scrap iron around their home, especially in the outlying districts, if they will contact the Chamber of Commerce, a truck will be sent out to pick it up.

Everyone is urged to line up all the scrap iron around their home and have it ready to contribute to the drive as steel mills need the scrap for their open hearths so that we will be able to manufacturer enough bombs to supply the vast amount of planes that are being manufactured with warfare supplies.

Slippery Rock Women At Manse

Missionary Society Names Mrs. Charles Wilson President For New Year

ELLWOOD CITY, Feb. 12.—Mrs. Thomas Berger opened the Slippery Rock Presbyterian church manse on Wednesday to members of the Women's Missionary society who gathered for the February meeting.

Japan Reports New Offensive On Singapore

(International News Service)

TOKYO, Feb. 12.—(by official Japanese wireless)—Japanese forces on the northwestern outskirts of Singapore City launched a sweeping offensive today against British remnants there, according to the official news agency Domei.

Immediately before the attack, leaflets were dropped on the city advising the inhabitants to seek shelter and await arrival of Japanese troops, who promised complete protection.

The attack was begun only after Singapore had rejected a surrender proposal, Domei said.

Earlier, Domei told of a Japanese air bombing attack "on a fleet of 25 merchant ships and warships preparing to flee from Singapore with the marooned defenders."

Bessemer Awarded Jackson Forfeit

Recent Mt. Jackson Victory, 22-20, Will Go Down In Books As Bessemer Victory

W. C. Evans of the Western Pennsylvania Interscholastic Athletic league, this afternoon announced that Mt. Jackson High's recent 22-20 Section 20 victory over Bessemer High has been forfeited to Bessemer.

The incident reached the W.P.I.A.L. moguls when Mt. Jackson officials discovered that one of their players, Kallas, was ineligible due to the fact that his parents have moved to Petersburg, O. Mt. Jackson officials immediately wrote to league moguls to clarify the matter.

As a result, Bessemer leads Section 20 with nine victories against one defeat and is almost certain to win the championship which qualifies the team to participate in the W.P.I.A.L. tournament.

On Lady Hawkins

Earl Withrow

Earl Withrow, above, of Savannah, Mo., is shown as he arrived in New York. He was aboard the Canadian liner Lady Hawkins when that ship was torpedoed in the Atlantic. Withrow was one of 71 saved; 250 persons were lost in the sinking of the ship.

Reveal Shortage Of $1,061 Prevails

(International News Service)

HARRISBURG, Feb. 12.—Shortages in the Pittsburgh office of the bureau of vital statistics, first revealed in an audit last August, will amount to $1,061.20, Auditor General F. Clair Ross disclosed today.

In a letter to Dr. A. H. Stewart, acting secretary of health, Ross stated that to the $801.09 shortage discovered last August has been added an additional $260.11 missing from all accounts handled between the time the irregularity was first discovered and Nov. 14, the date on which Margaret Knoch, the registrar, was suspended by the department of health.

In suspending Miss Knoch, Stewart explained that the discrepancy appeared to have developed in the return of fees to persons who apply for a certified copy of their birth certificates but fail to receive one when a search does not disclose an existent copy. In such instances, half of a dollar fee charged by the state is returnable to the applicant.

To gauge war production, count the billions spent, less the total sum paid to agents and friends of the right people in Washington.

Says Sacrifices Not Made Clear

Landon Says Life Will Not Be Again As We Have Heretofore Known It

ENTIRE NATION IS JOINED IN DEFENSE

(International News Service)

WASHINGTON, Feb. 12.—President Roosevelt today had the renewed pledge of leading Republicans of their party's vigorous support of his prosecution of the war.

Speaking at a Lincoln day dinner in Washington Alfred M. Landon, 1936 presidential candidate, declared:

"There is only one party in the United States, the party of patriotic, loyal American men and women determined to win this war and to perpetuate the Republic. Patriotism is not confined to political faiths.

"Every citizen owes it to his country to give the President wholehearted support in his prosecution of the war."

Landon maintained, however, that the President has not made clear to the nation the staggering sacrifices that are ahead. "Life will not be again, in our time, as we have heretofore known it."

In what was considered an answer to Democratic National Chairman Edward P. Flynn's statement asking the people to elect a Democratic Congress Landon accused the opposition party of attempting to arrange a postwar world that would be controlled by New Dealers.

Speaking at the same dinner G.O.P. National Chairman Joseph W. Martin Jr. said:

"I venture to say that no opposition party has ever given more complete support than we have to President Roosevelt during this war period. That support was promised him and we shall keep the faith. We will always put our country ahead of partisanship."

Martin said that at the same time "we must keep alive the two party system of government."

CALIFORNIAN HAS RARE COLLECTION OF SILVER SPOONS

(International News Service)

SACRAMENTO, Cal.—Harry H Fink of San Diego has a spoon collection with which he said he could trace the civilization of man through the ages, but from this the public is barred.

"I wasn't born with a silver spoon in my mouth, but I have been collecting them for 40 years and now has 3,860 of them", Fink explained, but said he has previously refused to exhibit them publicly because of the value. He keeps them in vaults.

The collection, one of the world's largest, includes a spoon from Egypt that dates back 4,000 years. Its beautiful silver filigree is set with jade.

Made of carved horn, ebony, shell rare woods and almost every metal the spoons range in size from one-half inch to 2 1-2 feet long.
